

Immersive learning knows no limits.

Lenovo VR Classroom brings immersive education to your classroom.

Everything you need to take students on a journey is included. Simple VR hardware, device/classroom management software, and support services will help you take learning beyond the books.

VR connects with every type of learner.

VR Classroom creates an immersive educational experience that speaks to every student. Engaging visuals, meaningful text, and explanatory audio means there's something to spark a connection for every learner.

You control your virtual classroom.

It's easy to monitor students and launch apps and content across your headsets and devices with the included content management tools. The online portal puts you in charge of your classroom — in school or remotely.

VEATIVE

Access extensive STEM modules with Veative.

When you upgrade to the Veative Full Suite license, you'll get access to more than 500 STEM modules.

Dive into interactive lessons in math, biology, chemistry, and physics where you can show students real-world applications of the Pythagorean Theorem, or travel on a virtual field trip to the surface of a leaf and learn about photosynthesis.

These standards-aligned modules feature assessments.
