

ThinkShield

IT leaders do more than protect data. You accelerate progress.

IT security gives organizations a competitive edge. The ThinkShield portfolio speeds technological progress without impeding the employee experience.

53% of executives are **"extremely concerned"** about the effects of cyberthreats on growth prospects.¹

Security by Design

Security begins in R&D and extends through our supply chain and the lifecycle of every device we build.

Secure Supply Chain

Rigorous supplier vetting assures that every step of the manufacturing process is controlled, audited, and tamper-proof from our facility to your employees' desks.

Built for Business

Windows 10

Lenovo recommends
Windows 10 Pro for Business.

© Lenovo 2020. All rights reserved. v1.00 July 2020.

Intel vPro® platform

A platform of protections built for business to lock the BIOS, scan the memory using the GPU instead of the processor, and remotely manage endpoint devices.

SentinelOne®

AI-powered antivirus protection predicts, prevents, and stops even zero-day threats and instantly directs the device to self-heal.

Absolute®

Persistent endpoint management for real-time monitoring and remediation, no matter where devices access the network.

Advanced solutions

Secured-core PC

Boots up against a root-of-trust checklist to guard against attacks aimed below the operating system.

ThinkPad X1 Carbon

ThinkShield: Smarter security for a competitive advantage
