

# ThinkShield

## THREE TYPES OF EMPLOYEES WHO LEAVE YOUR BUSINESS VULNERABLE.

You could be one click away from disaster. ThinkShield defends against your team's innocent mistakes before they become devastating breaches.

### non-compliant user

They don't think it's a big deal to turn off anti-malware—or just don't know they're non-compliant. ThinkShield keeps them in line—automatically.

#### FIND WEAK LINKS

Absolute dark endpoint detection finds and automatically remediates employee PCs that are out of policy.

#### DON'T "REMIND ME LATER"

Ensure all critical updates (Windows, system, and applications) are delivered and applied via Lenovo Patch for SCCM.

#### YOUR "PA\$\$WORD" ISN'T FOOLING CYBER THIEVES

Add security by adding additional factors, or removing typed passwords altogether, with customizable multi-factor solutions such as Intel® Authenticate, Windows Hello, and the FIDO alliance.

### remote user

ThinkShield can help prevent remote users from carelessly exposing sensitive data.

#### THE WI-FI MAY BE FREE, BUT IT'S NOT FREE FROM RISK

Lenovo Wi-Fi Security prevents users from connecting to unsafe networks, keeping data away from prying eyes.

#### WAVE GOODBYE TO SHOULDER-SURFERS

ThinkPad Privacy Guard alerts workers when it detects someone lurking behind their machine.

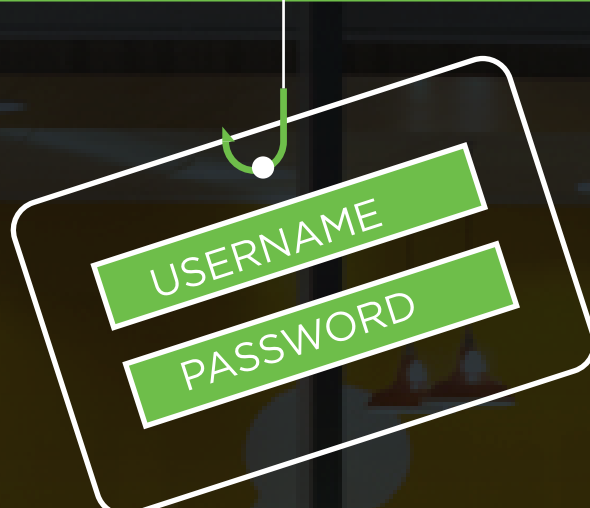

#### THE DEVICE IS LOST, BUT THE DATA IS NOT

Encryption tools prevent unauthorized access to sensitive information if data is being misused or a device is lost or stolen.

### the unfortunate target

You've told your people not to click on suspicious links 1,000 times. How's that going?

#### NO ONE IGNORES THAT LATE NIGHT EMAIL FROM THE BOSS, EVEN IF IT'S AN IMPOSTER

Even if an employee falls victim to a phishing or malware attack, BUFFERZONE Sandboxing keeps malicious files isolated and unable to cause damage.

ThinkShield is Lenovo's portfolio of secure Think devices, software, and services—fully customizable to keep your business ahead of dangerous breaches. Get the most comprehensive protection with a modern Windows 10 Pro device powered by the Intel® vPro™ platform.

vPro™ Platform

Windows 10

Windows 10 Pro means business.
