

Free up your time to drive business growth.

IT security isn't a cost — it's an investment that drives returns.

Spend less time setting up, monitoring, and securing devices, and more time implementing breakthrough technology.

IT benefits

A customizable portfolio to protect and manage a remote fleet.

Maintain visibility to every device in the network with Absolute® endpoint management software.

Keep drivers and third-party applications up to date automatically with Lenovo Patch for SCCM.

Help protect the fleet “below the OS” with AMD Secure Boot, AMD Secure Processor, and AMD Memory Guard.

ThinkPad T14

ThinkShield: Smarter security for innovation

ThinkShield is Lenovo's security portfolio of hardware, software, services, and processes — fully customizable solutions to secure your critical data and business technology.

Get the most comprehensive protection with modern Lenovo devices running Windows 10 Pro and built on AMD Ryzen™ PRO security features. Learn more at www.lenovo.com/ThinkShield.

86%

of businesses that believe in security's ability to open new business opportunities **saw 10%+ revenue growth** year over year.¹

End-user benefits

Easy-to-use solutions that boost productivity.

Windows 10 Hello and FIDO2 enable faster, frictionless authentication.

Glance protection automatically locks the device when the user steps away.

PrivacyGuard with PrivacyAlert filters the screen to help prevent shoulder surfing.
