

ThinkShield

# Is it really a solution if you're working harder?

ThinkShield gives IT teams a custom-fitted solution for end-to-end protection and management of the entire fleet — even remotely.

## Secure setup

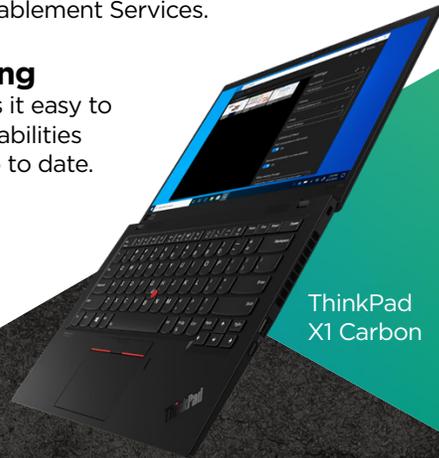

Lenovo's Think family of devices powered by the Intel vPro® platform deliver peace of mind. Intel® Transparent Supply Chain and Intel® Trusted Device Setup ensure the integrity of smart components from source to factory to end user.

Let Lenovo handle the quality control for your Secured-core PC with our Secured-core PC Enablement Services.

## Flexible patching

Lenovo Patch makes it easy to quickly patch vulnerabilities and keep devices up to date.

ThinkPad X1 Carbon

# 25%

Security personnel waste 25% of their time **chasing false alerts**.<sup>1</sup> ThinkShield and SentinelOne® use AI to flag the actual threats that need your attention.

## Endpoint management

Maintain visibility and access to every single device in the network with software-based Absolute® or hardware-based Intel® Active Management Technology on the built-for-business Intel vPro® platform.

## Next-generation antivirus protection

Predict and stop even zero-day attacks with the SentinelOne® AI-powered active endpoint detection and response (EDR) solution.

## ThinkShield: Smarter security management

ThinkShield is Lenovo's security portfolio of hardware, software, services, and processes — fully customizable solutions to secure your critical data and business technology.

Lenovo recommends Windows 10 Pro for business, powered by the Intel vPro® platform. Learn more at [www.lenovo.com/ThinkShield](http://www.lenovo.com/ThinkShield).
