LENOVO EDUCATION—AP

Education software portfolios

Schools across the globe experienced a digital transformation as students and teachers rapidly shifted to remote and hybrid learning. Lenovo was there to support educators and learners every step of the way with innovative software for instruction, classroom management, and safety & security. And we will continue to lead the way as schools evolve their classrooms for the challenges ahead.

Lenovo's education software portfolio addresses the needs of IT admins, educators, and students working anytime, anywhere to ensure a seamless experience.

Smarter technology for all

CYBERSECURITY, STUDENT SAFETY & DEVICE MANAGEMENT

Track, assess, and protect remote devices 24/7.

• Content Filtering
• Student Safety
• Next-gen Anti-Virus
• Device Security

CLASSROOM MANAGEMENT

Manage live class sessions effectively with tools to share and filter content.

• Screen Monitoring
• Content Delivery
• Collaboration Tools
• Video Conferencing

INSTRUCTIONAL RESOURCES

Engage students with robust learning options.

• Tech-Enabled Social Learning
• STEM Readiness
• Digital Creation Tools

Explore the key features of each software. Note: software can also be purchased a la carte.

PORTFOLIO	SOFTWARE	WHY?	KEY FEATURES
CyberSecurity & Student Safety	**/ABSOLUTE®** Endpoint Security	Track, control, protect & reclaim distributed devices.	• Theft recovery • Geolocation & geofencing • Device health monitoring
CyberSecurity & Student Safety	**SentinelOne™** Next- generation antivirus	Significantly shrink the time it takes to detect, contain, and eradicate a cybersecurity threat.	• AI-based protection against a wide range of malware, Trojans, hacking tools & ransomware • Alert, kill, and quarantine processes • 1-click rollback
CyberSecurity & Student Safety	**filewave** Multi-platform management	Simplify the tracking, deployment, and management of hardware and software assets	• Compete IT asset inventory with geolocation • End-to-end software management for remote configuration, deployment, and support • Reports all settings, applications, devices, and users
CyberSecurity & Student Safety	**BUFFERZONE** Virtual containment and safe browsing	Isolate possible threats without blocking users from working	• Secures email messages and attachments • Provides data for incident investigation • Protects from a full array of potential attacks
CyberSecurity & Student Safety	**Lightspeed Systems®**	Makes 1:1 programs safe and effective, even when devices are used off campus.	• Ensure safety wherever devices go • Ensure student well-being with real-time self-harm alerts • Report on apps in use to determine ROI, drive effectiveness, and block rogue tools • Pull other digital tools together during remote classes with link share, screen viewing, and teacher controls • Cross-platform over-the-air app and mobile device management

PORTFOLIO	SOFTWARE	WHY?	KEY FEATURES
CyberSecurity & Student Safety	Lightspeed MDM™	Use device and software license usage data to determine ROI and make future data-driven decisions.	• Content filtering and student safeguarding • Comprehensive activity reporting • Data privacy • Compliant with any device, including BYOD • Works on any network
	Lightspeed Filter™	Use device and software license usage data to determine ROI and make future data-driven decisions.	• Content filtering and student safeguarding • Comprehensive activity reporting • Data privacy • Compliant with any device, including BYOD • Works on any network
	Lightspeed Classroom Management™	Leverage student browsing data to keep students focused and on-task.	• Limit browsing during the classroom session • Monitor student screens • Secure testing window
	Lightspeed Analytics™	Use return on investment data to ensure apps and tools are efficient & cost-effective.	• Actionable, detailed reporting on cost and ROI • Rogue app reports

PORTFOLIO	SOFTWARE	WHY?	KEY FEATURES
Classroom Management	LANSCHOOL LanSchool Classic is available in APAC at this time.	Support synchronous learning sessions and offer students a collaborative, distraction-free learning environment.	• Student screen monitoring • Messaging & collaboration tools • Raise hand feature for remote learners
Classroom Management	Google Meet * Video conferencing for live distance learning class sessions	Securely conduct remote classes and faculty meetings using almost any web browser or phone	• Provides high level of data privacy and security measures • Join meetings with one click • Easy screen sharing and recording
Classroom Management	Microsoft Teams ** Comprehensive remote class session solution (only available in Japan and Australia)	A safe, comprehensive video conferencing platform for student learning as well as faculty and admin meetings	• Video conferencing • Content management • Gradebook • Collaboration groups • Chat • Professional development
Classroom Management	Lightspeed Systems®	A host of powerful classroom management controls that save instructional time	• Simple UI with automated rostering to keep classes running smoothly • AI insights alert teachers to unusual browsing activity • Multi-OS support • Admin controls make Classroom safe, easily managed, and privacy-compliant • Screen recording and broadcast

PORTFOLIO	SOFTWARE	WHY?	KEY FEATURES
Instructional Resources	Google Creativity Apps for Chromebook Explain Everything, Infinite Painter, Soundtrap, Book Creator, WeVideo, Squid	Scale app licenses as needed for screencasts, drawings, podcasts, books, videos & notes.	• Licenses can be purchased and easily managed within the Google Admin Console • Manage pool of licenses with no user name or password required
Instructional Resources	VEATIVE Web-based k12 virtual reality lesson library	Allow student users to access 3D STEM learning experiences through web-based VR.	• Lesson library of 500+ VR experiences with learning objectives & assessments • Accessible on any device with an internet connection • Analytics for engagement & performance

* Available with Google Meet Series One Room Kits by Lenovo
** This availability is based on country and is not available in all markets.
