Lenovo

Sleek and Elegant Design

With its sleek and eye-catching design, the Mercury Series offers an easy and intuitive end-user experience for customers.

Flexible Configurations

Available with choices of floor-standing or countertop, the Mercury Series is suitable for any self-service requirement and adapts to changing business needs as well as consumers' demands.

Built for Easy Serviceability

Engineered for single-user assembly and ease of maintenance, cable management and component replacement, the Mercury Series reduces costs of deployment and service, allowing for a more rapid return investment.

Designed for Today's Dynamic Retail Environment

With integrated peripheral options including NFC/RFID reader, 2D scanner, and a bracket for EMV payment devices, the Mercury Series is able to handle daily self-service applications.
