# WORKPLACE OPTIMIZATION SOLUTION DATASHEET

Ver. 1.0

Optimize usable space and save power costs by reducing clutter, deploying green IT, streamlining equipment and cabling, and signing up for IT management services.

## 5 reasons why Lenovo is a difference maker

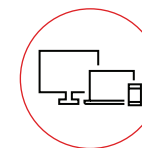

Trusted around the world

Expertise across categories

Confidence in our products

Business-boosting technology

Flexible support network

Powered by Intel®.  
Intel Inside®.  
Powerful Productivity Outside.

## THINKPAD EFFECTIVENESS

- **Faster wakeup**  
Intel® Optane™ helps devices recover quickly from standby.
- **Power Bridge technology**  
ThinkPads with this technology allow you to swap out a battery and replace it with a fully charged one—without having to turn the machine off.
- **Industry leading testing for durability and reliability**  
ThinkPad notebooks have passed 12 MIL-STD 810G tests for the perfect balance of value and durability, right out of the box.

## THINKCENTRE EFFECTIVENESS

- **Intelligent Cooling Engine (ICE 3.0)**  
The innovative ICE 3 engine and sensors regulate the heat inside ThinkCentre desktops to ensure cool, quiet and reliable performance for years.
- **Tiny in One (TIO) Gen 3 Monitor**  
This modular all-in-one neatly houses a 1-litre form factor ThinkCentre Tiny PC (sold separately) inside the monitor, meaning you can build the PC fit for your business. Tiny-in-One 3 is compatible with ThinkCentre Tiny PC 2 to 4, Chromebox, and Thin Clients. Simply tuck the model of your choice into the back of the display, and within seconds you'll have a full-featured, powerful AIO that can be upgraded without losing the monitor.
- **Dust filters for product longevity**  
Optional Dust Filter extends the life of your ThinkCentre by reducing dust intake by up to 57%.

## EFFECTIVE ENDPOINT DEVICES

Employees must be equipped with the right endpoint devices that can optimize usable space, save power and enable mobility without compromising on efficiency.

### Think PCs – With the right accessories

For 25 years, the Think brand has been defined by simplicity, function, and value.

X1 Carbon with Thunderbolt™ dock

#### ThinkPad X1 Carbon

- Compatible with the ThinkPad Ultra dock for performance-enhancing productivity
- RapidCharge technology for freedom from power outlets
- Flexible usage modes to suit the user requirements\*  
(\*Only on X1 Yoga and X1 Tablet)

#### ThinkPad T480

- Super-fast SSD Storage for quick boot ups and recovery from standby
- Powered by the latest **8<sup>th</sup> Generation Intel® Core™ i7 Processor with vPro™** and DDR4 memory
- A full-sized RJ45 Ethernet connector and **Intel® Thunderbolt™ 3** port eliminate the time wasted using dongles and converters

T480 with dual stand

ThinkCentre M910 Tiny with underdesk mount

#### ThinkCentre M910 Tiny

- Compact 1-litre form factor to save space without compromising performance
- Maximum productivity for power users with support for up to four displays.
- Fully compatible with Tiny in One (TIO)

#### ThinkCentre M910z AIO

- Powered by the latest **Intel® Core™ vPro™ Processors**
- Tool-less design makes ThinkCentre AIOs easy to service
- Tilt, height, and swivel functionality for ergonomic usage

ThinkCentre M910z AIO with Adjustable Height Arm

### Lenovo Vantage – The built-in IT specialist on Think PCs

Lenovo Vantage is a new application that replaces Companion and many other Lenovo apps by combining their functions and adding new features so that users can easily protect and customize their PCs. As the only Lenovo branded application that is preloaded on new PCs, it's now simple for users to update their drivers, run device diagnostics, request support and discover other useful apps. Lenovo systems already running Windows 10 will automatically receive Lenovo Vantage as an update, and it will be preloaded on newer systems.

### Premier Support – Effectiveness to match Think PCs

A tech-support service with real engineers. Experience the pleasure of bypassing basic troubleshooting, shorter waiting times and even support for limited third-party applications. This service improves the effectiveness of in-house IT allowing them to focus on mission-critical tasks.

# EFFICIENT COLLABORATION TECHNOLOGIES

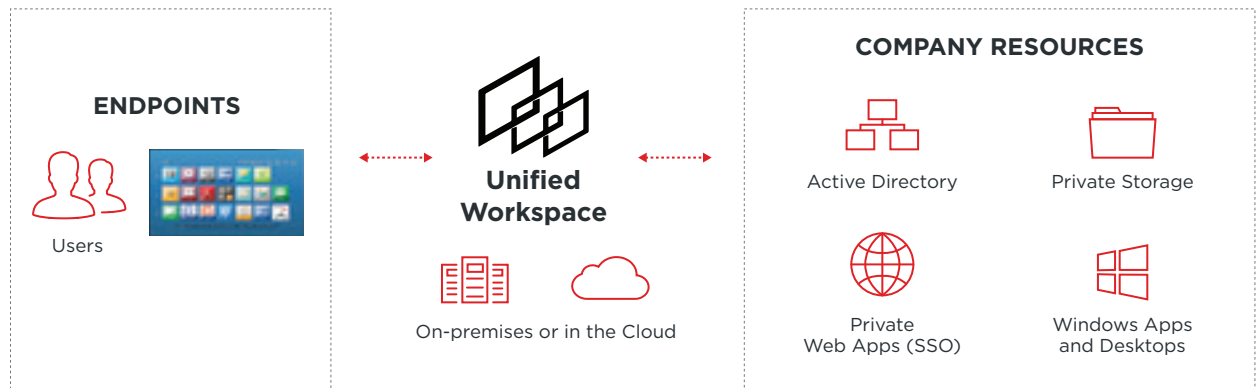

Enhance collaboration through applications which facilitate it, while keeping information secure and restricted to authorized personnel.

## Lenovo Unified Workspace – A holistic solution for today’s workforce

Lenovo Unified Workspace enables organizations to securely deliver the right apps and content to the right users - anytime, anywhere, on any device. So, your employees can have the flexibility, policies and tools they need to be more creative, productive, and collaborative.

### Business benefits of Lenovo Unified Workspace:

- Maximize employee engagement and productivity
- Enable workforce and business innovation
- Drive relevance and profitability

Unified Workspace on-premises and Cloud-hosted offerings are designed to work for your unique mix of staff, infrastructure, expertise and IT stack.

|   | ON-PREMISES    | CLOUD | CLOUD ENTERPRISE |
|---|----------------|-------|------------------|
| Web App Delivery                                  | ☐              | ☐     | ☐                |
| Integrated File Shares and Cloud Storage Services | ☐              | ☐     | ☐                |
| Legacy Windows Applications*                      | ☐              |       | ☐                |
| Remote Desktop Services*                          | ☐              |       | ☐                |
| Single-Tenant Hosting and Administration          | HOSTED BY YOU  | ☐     | ☐                |
| Updates and Maintenance                           | MANAGED BY YOU | ☐     | ☐                |

\* In order to deliver legacy Windows applications and Remote Desktop Services, you must have existing RDSH/Terminal Services, or a VDI client to integrate with.

## KEY FEATURES OF LENOVO UNIFIED WORKSPACE

- Legacy Windows apps and private or public Cloud apps all in one workspace for the user
- OS agnostic – works the same on Windows 7 as it does on Android, iOS, Mac OS, or Windows 10
- A consistent experience on corporate-issued machines or mobile devices/BYOD
- Available on-premises with your existing infrastructure or as a Cloud-hosted solution

## SMART MEETING ROOMS

- Rich and powerful sound**  
 The ThinkSmart Hub 500 comes with dual Dolby® Audio Premium tuned speakers with a 2-mic array tuned for far-field sensitivity.
- Simple and effective control**  
 The informative calendar the Hub 500 shows current and upcoming meetings and participant roster, while the Skype status is indicated through a 3-color LED and meeting timer. Participants and presenters can be spotlighted for enhanced productivity.
- Get more from meetings**  
 Up to four presenters can share their screens simultaneously with the ThinkCentre Tiny with Intel® Unite™ – enabling side-by-side comparison of charts from separate reports or documents.

## SMART MEETING TOOLS

Conduct and manage meetings the smart way with smart meeting tools.

Most often meetings get delayed by an average of 10 minutes due to tech issues. Smart office solutions are the only way forward to enhance productivity and ensure efficiency.

### ThinkSmart Hub 500 – Compact and full featured

- All-in-one, purpose-built Skype Room Systems device powered by Windows 10 IoT
- Powered by the **Intel® vPro™ Processor**
- Enables fast and wireless content sharing capabilities

Key features of the ThinkSmart Hub 500 include:

A 360° rotatable display – democratizing the meeting for everyone in the room

Integrated audio speakers and microphones – eliminating the need for separate speakers and phones in meeting rooms

Secure cable management door to hide wires and prevent unauthorized access.

### ThinkCentre Tiny with Intel® Unite® – Built for easy screen sharing

Get your meeting underway instantly by connecting wirelessly to your big screen from your device\* using the ThinkCentre M910 with Intel® Unite®.

Key features of the ThinkCentre Tiny with Intel® Unite® include:

No cables or dongles required - enhance productivity by quickly sharing content and collaborating

Supports devices running on Windows 7, Windows 8.1, Windows 10, and OSx. (Now available for iPad, Android tablet, Chromebook, and Linux)

Enterprise ready - a room solution with the performance, security features, and manageability powered by Intel®vPro™ technology.
