Distance learning software portfolio

During this unprecedented transition to remote learning, schools are seeking the most effective software to achieve their distance learning goals.

Lenovo is offering a software portfolio to address key needs and to help education leaders create and execute a distance learning plan.

Smarter technology for all

Lenovo

- **CYBERSECURITY**
- **STUDENT SAFETY**
- **ENDPOINT PROTECTION**

- **DEVICE MANAGEMENT**
- **ANALYTICS**
- **CONTENT FILTERING**

- **CLASSROOM MANAGEMENT**
- **STUDENT CREATIVITY TOOLS**

Explore the key features of each software. Note: software can also be purchased a la carte.

SOFTWARE	WHY?	KEY FEATURES
ABSOLUTE	Track, control, protect & reclaim distributed devices.	• Theft recovery • Geolocation & geofencing • Device health monitoring
SentinelOne	Significantly shrink the time it takes to detect, contain, and eradicate a cybersecurity threat.	• Protection against a wide range of malware, Trojans, hacking tools & ransomware • Quick recovery time
Lightspeed Systems	Makes 1:1 programs safe and effective, even when devices are used off campus.	• Ensure safety wherever devices go • Ensure student well-being with real-time self-harm alerts • Report on apps in use to determine ROI, drive effectiveness, and block rogue tools • Pull other digital tools together during remote classes with link share, screen viewing, and teacher controls • Cross-platform over-the-air app and mobile device management
Relay Mobile Manager **Manage**	Use device and software license usage data to determine ROI and make future data-driven decisions.	• Over-the-air management of settings, content, and controls • Designed specifically for schools with smart groups and school-based hierarchy
Relay Classroom **Monitor**	Leverage student browsing data to keep students focused and on-task.	• Limit browsing during the classroom session • Monitor student screens • Secure testing window
Relay Web Filter **Filter**	Protects students and devices with smart content filtering.	• Content filtering and student safeguarding • Comprehensive activity reporting • Compliant with any device, including BYOD • Works on any network
Relay App Analytics **Analyze**	Use return on investment data to ensure apps and tools are efficient & cost-effective.	• Actionable, detailed reporting on cost and ROI • Rogue app reports
Google Creative Suite	Scale app licenses as needed for screencasts, drawings, podcasts, books, videos & notes.	• Licenses can be purchased and easily managed within the Google Admin Console • Apps foster interactive teaching and learning
