Lenovo solutions power a smarter hybrid work world

Our portfolio for the future of collaboration
The next normal is hybrid. The time is now.

The digital acceleration of 2020 was dizzying. We’re still catching up.

80% of companies now consider it a strategic necessity to continue accelerating their digital transformation.!
Speeding ahead was imperative to enable the sudden, massive shift to work from home. While **83% of companies were successful**, remote collaboration remains challenging.2

There are compelling reasons to not abandon the office entirely. Nearly half of employees say collaboration is easier in the office. And **65% report feeling lonely at home.**3 It’s increasingly clear that a hybrid mix of onsite and work from home is the future.

As companies pave the way for this new model, one thing is certain: Collaboration is an integral and essential part of organizational success. Employees need the flexibility to collaborate anytime and anywhere, the physical space to connect with colleagues in person, and the technology to enable it all.

**48%** of employees say collaboration is easier in the office.3
72% of knowledge workers prefer a hybrid approach.⁴

Reinventing the workplace

Work is what we do, not the place we go to do it. The trend is for more people to be working from home more of the time. But there will be times when meeting in person is the better option. Tomorrow’s offices will be co-creation spaces where employees meet to collaborate — some in person, some from remote locations. There will be a range of room types and sizes for multiple use cases spanning individual deep work to informal interaction to structured team meetings. Lenovo provides technology that optimizes collaboration in every setting, from solo remote to groups onsite.

Organizations are adapting workplace design to encourage collaboration and learning of the hybrid workforce.⁵ Capgemini

Leading organizations will boldly question long-held assumptions about how work should be done and the role of the office.⁶ McKinsey
Lenovo Smart Collaboration solutions: Built for the hybrid workplace

Holistic
Lenovo Smart Collaboration pairs hardware, software, and services to create use case-specific total solutions.

Flexible and scalable
We offer a choice of UC platforms and collaboration systems that scale for any room size.

Secure
All ThinkSmart solutions are safeguarded by our ThinkShield suite of security solutions for data and endpoint protection.

Collective brain power. Delivered by a single trusted source.
We partner with the industry’s best to bring you joint innovation and solutions built specifically for collaboration in the new hybrid normal.

Solution components are integrated, made to “simply work” together out of the box. You save time and headaches with one point of contact for purchase, services, and global support — backed by the quality and reliability of the Lenovo brand.
Bringing our portfolio to life
Meet the ThinkSmart family
This way to collaboration reimagined

A hybrid work environment is all about flexibility. Lenovo has developed flexible solutions ideal for a range of use cases, with choices on multiple fronts: UC platform, room size, peripherals, mounting options, and accessories.

**Lenovo**

Certified for
Microsoft Teams
ThinkSmart View
Personal productivity assistant

Perfect for:
• Individual collaboration
• Administrative tasks
• Hot desking

Available UC platforms
• Microsoft Teams
• Zoom for Home

Features and benefits
Convenient: One-touch meeting start/join
Efficient: Employees stay productive on their PCs while View handles videoconferencing, content viewing, and voice and video calls
Flexible: Easy collaboration from anywhere — home or private offices, shared workspaces, common areas, privacy booths
Secure: Built-in camera shutter, microphone mute button, and secure access PIN for privacy in use and at rest
Multifunctional: Ideal for use cases from business to education to healthcare
ThinkSmart Hub
All-in-one room system

Perfect for:
• Hybrid team collaboration
• Room sizes from small to large
• Use cases from business to education to healthcare

Available UC platforms
• Microsoft Teams Rooms
• Zoom Rooms

Features and benefits
Streamlined: 20% smaller footprint than previous generations; innovative One Cable mechanism to reduce clutter
Convenient: One-touch meeting start/join
Immersive: Richer audio and ultra-low noise certified for more inclusive and productive collaboration
Manageable: Remote monitoring and touchless troubleshooting with ThinkSmart Manager
Secure: Lenovo ThinkShield end-to-end security solution and Intel vPro® platform
ThinkSmart Edition Tiny
Compact full-featured PC

Perfect for:
• Small spaces
• Powering modular meeting room systems
• Use cases from business to education to healthcare

Available UC platforms
• Microsoft Teams Rooms
• Zoom Rooms

Features and benefits
**Powerful:** Intel vPro® processors deliver smooth, steady meeting performance
**Flexible:** Clutter-free with easy access — can be mounted under tables or behind displays
**Secure:** Built-in Lenovo ThinkShield security solutions and Intel vPro® platform manageability
**Stable:** Preloaded with Windows 10 IoT for stability and added security
**Efficient:** Purpose-built for UC software with no unnecessary storage or bloatware
ThinkSmart Cam and ThinkSmart Bar
Easy on the eyes and ears

Lenovo’s ThinkSmart accessories are designed to enhance the sound and picture quality of videoconference calls. Flexible and scalable, the ThinkSmart Cam and ThinkSmart Bar are as efficient and effective in large meeting rooms as they are in a home office. Both are Microsoft Teams Rooms and Zoom Rooms certified. And both can be centrally managed with ThinkSmart Manager.

ThinkSmart Cam
This lightweight 4K High Dynamic Range (HDR)-capable camera supports high-resolution frame rates with a wide field of view.
• Built-in vision processing unit (VPU) and neural network for AI-enabled smart meeting features
• Advanced features include auto-zoom, auto-framing, people counting, speaker tracking, and whiteboard awareness
• Can be standalone or wall/TV mounted

ThinkSmart Bar
ThinkSmart Bar is an enterprise-grade sound bar purpose-built with meeting room-based videoconferencing in mind.
• Lightweight standalone premium sound bar
• Four built-in microphones for an immersive experience
• Solution includes a separate puck with four beamforming microphones to clearly capture all speakers’ voices
**ThinkSmart Manager**

Hassle-free remote efficiency

A single view makes everything easier. This cloud-based software lets you see your entire ThinkSmart network on one console — from anywhere. Minimize the need for in-person troubleshooting. Improve issue resolution speed for SLA compliance. Even manage on the go with the Android or iOS mobile app. And get valuable time back for innovation and big-picture goals.

**Proactive monitoring**
- Get immediate notifications and fix critical issues before they are reported
- See real-time status by device
- Generate reports on device issues and trends

**Remote control**
- Remotely deploy, configure, and update devices
- “Apply all” to streamline actions across multiple endpoints
- Enable Windows remote desktop

**Better protection**
- Allow BIOS/SVP change management
- Prevent unwanted USB port use
- Manage passwords centrally for BIOS, Windows, and Microsoft Teams accounts

**Choice of plans**
- ThinkSmart Manager BASIC: No-cost plan for essential fleet management needs
- ThinkSmart Manager PREMIUM: Subscription plan with additional features

Premier Support
Direct line to elite technicians

All ThinkSmart solutions come with our top-of-the-line support — for peace of mind around the clock and around the world.

- Advanced technical support, 24x7x365, in more than 100 markets
- Comprehensive hardware and OEM software support
- Single point of contact for simplified end-to-end case management
- Technical account managers for proactive relationship and escalation management
- Priority on service delivery and repair parts
- Lenovo Service Connect Portal for customized reporting and product support

91% of Premier Support customers would purchase again.

88% would recommend Premier Support to a peer.
Professional Services
Lighten your load end to end

Give support a whole new meaning with optional Professional Services tailored for our Smart Collaboration portfolio. Take advantage of them to get every bit of value from your solutions. All services are performed remotely, or you can purchase full onsite service for a more hands-on experience.

Assess
Get a head start with customized pre-deployment evaluations of your IT infrastructure and deployment guidance.
  • Investigation
  • Detailed guidance
  • Customized reporting

Design
Develop your collaboration space room standards for smooth and easy technology rollouts.
  • Meeting space evaluation and categorization
  • Room standards documentation
  • Detailed plans

Train
Provide your teams with use case-based training focused on your organization’s real-world scenarios.
  • Dedicated, experienced instructors
  • Custom materials
  • Targeted offerings

Maintain
Keep all your devices performing at their best with our yearly maintenance contracts.
  • Best practices
  • Support via phone, email, or instant messaging
  • Guidelines and health check-ins

Deploy
Set up your Smart Collaboration solutions to hit the ground running.
  • Initial configuration and integration
  • Asset management
  • Documentation

Full onsite
Give yourself the gift of white glove treatment from a dedicated onsite specialist.
  • Physical installation and configuration
  • Assessment, room standard design, and training
  • Solution optimization
Solutions for all the ways your workforce collaborates

The old office is old news. The new hybrid employee spends at least part of every work week collaborating solo at home. ThinkSmart View and a Lenovo laptop are the ideal solution for personal productivity. And when teams need to be together, redesigned offices offer a range of spaces.

ThinkSmart Edition Tiny
ThinkSmart Cam
ThinkSmart Hub
ThinkSmart Bar

ThinkShield protects devices and data. And ThinkSmart Manager lets IT remotely monitor and manage all ThinkSmart devices on the network.
Smarter hybrid work ahead

Welcome to the future — a hybrid mix of locations and office types where collaboration is vital and the right technology makes all the difference. Empower your organization with flexible solutions that make it easy to stay collaborative and productive, wherever workplace evolution leads.

Connect with Lenovo. We’re experts at breaking down barriers and building smart solutions. When you’re ready, we’re here to help.
