

ThinkBook

Smarter  
technology  
for all

Lenovo

# No matter where you're working, Lenovo ThinkBook has you covered.

Lenovo ThinkBook technology combined with industry-leading AMD processor performance delivers a highly portable yet rugged powerhouse that keeps you productive nearly anywhere work might take you. Lightweight and stylish, the Lenovo ThinkBook is nonetheless one tough laptop.

Today's on-the-go hybrid employees run a higher risk of accidental damage to their laptops. Lenovo and AMD are **leading the change** to boost employee productivity with powerful, feature-rich devices that are also resilient to the spills, drops, and bumps that inevitably occur during the workday. Tested and certified against MIL-SPEC standards for durability, Lenovo ThinkBook keeps on working wherever you set up shop.

 Lenovo ThinkBook 16p Gen 2	810H	To be assessed shortly

\*MIL-STD-810H (31 January 2019) establishes a methodology for testing products against environmental stresses. There are limitations inherent in all laboratory testing and therefore consumers should not assume that a computer which passes a laboratory test will also survive when subjected to the same stress under real world conditions. Abuse, like that contained in MIL-STD 810H, and ability to survive these conditions is not covered under warranty.
