ThinkVision M15
LIGHTENED, ENLIGHTENED, EXTENDED PRODUCTIVITY.
LIGHTEN THE LOAD DOING BUSINESS ON THE ROAD.

Make productivity portable with ThinkVision M15. Its stunning form factor is meticulously designed to expand and match the screen real estate of multiple kinds of laptop, this light and slim 15.6-inch FHD resolution mobile monitor weighs just 860g while its head measures a mere 6 mm thick, making it perfect for multi-screen multitasking like spreadsheets in an airport lounge or sharing a presentation with a prospect in a restaurant.

Equipped with two identical USB Type-C ports, the monitor gives users indispensable Power Pass Through capability. That means they can power both the monitor and the laptop with a single power adapter, up to 65W, plugged into one port with a USB Type-C cable connected to the computer from the other port. Or they can simply power M15 from the laptop using just one USB Type-C connection.

With safety ever in ThinkVision’s minds, the M15 mobile monitor also comes equipped with TÜV Rheinland certified Low Blue Light technology, which protects users from eyestrain caused by certain frequencies of blue light. Simply turn it on with the press of a button.

Stay in charge with Power Pass Through

M15 handles power with elegance and simplicity. Its true one-cable design solution means it can run off a single USB Type-C cable that delivers images, audio and data, as well as power, to the monitor from a connected laptop for supreme convenience on the road. But add to that its second, identical USB Type-C port and its invaluable Power Pass Through function allows both the monitor and the laptop to be charged from a single USB Type-C power plug. On top of enjoying this convenient design for power, users can also connect flash disks, earphones or other compatible USB Type-C devices through the monitor’s second USB Type-C port when it’s not in use.

XS size, XL UX

Taking M15 on the road may mean more hours of operation. With that in mind, it’s thoughtfully designed to care for users’ eyes by protecting them from eye fatigue and strain caused by harmful, high-energy blue-wavelength light. This is done with TÜV Rheinland certified Low Blue Light technology, which protects users from eyestrain caused by certain frequencies of blue light. Simply turn it on with the press of a button.

Lighter. Slimmer. Winner.

M15 does the heavy lifting of your productivity in a surprisingly light package. Just 860g and measuring no more than 6 mm through its head, this considerately crafted mobile monitor doubles users’ screen space with a 15.6-inch, In-Plane Switching panel, FHD display, the perfect resolution for a monitor of its size. With expanded screen real estate, work such as comparing detailed spreadsheets is made so much easier. Multitasking is a breeze and colleagues or salespeople can mirror or extend their screen to give prospective clients a presentation on their own screen, face to face, even in public spaces. Thanks to M15’s integrated, fold-out stand with height adjustment, the monitor will raise up to align with a laptop for the most seamless user experience.

FEATURES OF THINKVISION M15 MONITOR

- Power Button
- Kensington Lock
- USB-C
## ThinkVision M15

### DISPLAY
- **Panel Size**: 15.6-inch
- **Screen Dimensions**: 360.0 mm x 234.0 mm
- **Panel Type**: In-Plane Switching
- **Active Area**: 344.16 mm x 193.59 mm
- **Backlight**: WLED
- **Aspect Ratio**: 16:9
- **Resolution**: 1920 x 1080
- **Pixel Pitch**: 0.1793 mm x 0.1793 mm
- **Dot/ Pixel Per Inch (DPI/PPI)**: 141
- **Viewing Angle (H x V@CR 10:1)**: 178° / 178°
- **Response Time**: 6ms (Extreme Mode) / 14ms (Normal Mode)
- **Refresh Rate**: 60 Hz

CRAFTED FOR IMPROVED PRODUCTIVITY

PORTABLE USB-C MONITOR

The ThinkVision M14 is a sleek and lightweight mobile monitor designed to enhance productivity on the go. Its compact size and flexible design make it perfect for mobile professionals who need to extend their workspace in a variety of environments.

ACHIEVE YOUR GOALS ON THE GO

With the ThinkVision M14, you can easily extend your screen space to work more efficiently and comfortably. Its lightweight design and compact size make it ideal for travel, enabling you to work comfortably in any location.

EXPERIENCE ADVANCED CONNECTIVITY

The ThinkVision M14 is equipped with two innovative USB Type-C ports, making connectivity effortless. These ports support both power delivery and data transfer, allowing you to connect and charge your devices simultaneously.

BEFORE THE DAY YOU USE

PORTABLE USB-C MONITOR

The ambidextrous design of this monitor enhances user comfort. It is designed to work seamlessly with laptops of different brands, making it ideal for professionals who have diverse equipment needs.

### PORTABLE WITH A TOUCH OF INSPIRATION

SEE MORE EVERYWHERE YOU GO

Deliver as only you can. Enjoy the option of a vertical display setup and better media capabilities of USB-C, you can create a presentation, transfer data to a hard drive, and enjoy the unique power pass-through function. With dual USB-C, you can duplicate or extend your screen—be it your smartphone or laptop. The M14t offers a versatile solution with a broad range of connectivity options, allowing you to interact with your displays in different scenarios. Whether you are at the office or on the go, the M14t is your ideal companion. With its slim and light design, the M14t is easy to carry and set up, making it perfect for remote work. The Low Blue Light feature offers an extra layer of eye protection, ensuring you can work comfortably throughout the day. The Active Pen further enhances the user experience, enabling precise sketching and easy navigation. It also has a customized sleeve for protection, and an L-shaped dongle for cable management for a clean, easy desktop setup with all the necessary accessories included. It's a thoughtfully designed device that caters to both professionals and hobbyists, providing a seamless experience and a touch of inspiration wherever you go.
