## Explain Everything

### DIGITAL WHITEBOARDS AUGMENT LEARNING

Using a Digital Whiteboard on Chromebooks unlocks new, modern ways of teaching and learning.

### INSTRUCTIONAL DELIVERY

Substitute the chalkboard or whiteboard with a mobile device.

WITH EXPLAIN  
EVERYTHING  
YOU CAN:

- Present from a mobile device, untethered, facing the class.
- Use rich media and motion to make your teaching a supremely memorable experience.
- Record, repurpose, and share your presentation as a web video link.
- Engage students by allowing for collaborative remote participation with the use of a code or link.

WITH EXPLAIN  
EVERYTHING  
YOU CAN:

- Have students turn in video responses that resemble an "over-the-shoulder look" at what they are presenting.
- Provide engaging feedback in video format with ease, using a whiteboard that captures what you say and illustrate.
- Allow for small collaborative group projects so students gain both subject matter knowledge and digital literacy skills.

### ACTIVE LEARNING

Let students visualize their thinking, with each of them using their own digital whiteboard.

**Explain Everything is a cutting edge digital whiteboard that works great on Chromebooks in tandem with Google Classroom.**
