Technology efficiency can get **time** on your side

Intel® Evo™ vPro® platform  
Built for Business

Windows 10

Modernize your business:  
Windows 10 Pro devices

Smarter technology for all

Lenovo

## Do your employees constantly chase deadlines and work long hours?

Most SMB employees dedicate a major part of their day at work yet find themselves pressed for time.

Nearly four in ten full-time workers work at least **50 hours** per week<sup>1</sup>

**36%** of employees tend to complete tasks outside of work hours<sup>2</sup>

**51%** of small biz owners have no time to focus on themselves<sup>3</sup>

## Irregular schedules and work stress have a direct impact on employee experience (EX)

## Why do regular work hours never seem enough?

### Dodging workplace distractions

Workplaces are filled with distractions—from noisy co-workers, constant email and IM notifications, slow downloads, personal interruptions to delayed meetings.

**70%** of employees admit they feel distracted at work with them getting interrupted **every 3 mins**<sup>4</sup>

**46%** of distracted employees feel unmotivated, and **41%** feel stressed out<sup>4</sup>

### Constant distractions make the workforce feel unfocused and inefficient, affecting both productivity and EX

### Losing time to task switching

Most SMB employees, including business owners, wear multiple hats to maximize resources. This leads to managing multiple tasks at the same time.

Employees switch between tasks nearly **300 times per day**<sup>5</sup>

Multitaskers experience a **40%** drop in productivity across the board<sup>6</sup>

### Task juggling leaves your employees spinning the wheel and losing focus, making them feel flustered

Employees can have a productive day if they have the right tools to effectively juggle tasks, minimize workplace distractions, and manage work efficiently.

## Investing in smarter technology can help your employees focus better and increase their work efficiency, helping them save time and enhancing their EX.

### Lenovo ThinkBook Plus Gen 2 i7 helps you stay focused on the task at hand

With its dual displays, the Lenovo ThinkBook Plus Gen 2 i7 that runs on **Windows 10 Pro** allows you to take notes, review, and work on Windows apps like MS Word, MS PowerPoint, and MS Teams on the A cover, even when the laptop is closed. **Powered by the Intel® Evo™ platform**, the ThinkBook Plus Gen 2 i7 brings premium laptop experience with instant wake, long real-world battery life, and remarkable responsiveness.

### Work uninterrupted with ThinkPad X1 Yoga Gen 6+

The **Intel® Evo™ vPro® platform** delivers the world's best productivity for business<sup>7</sup> and provides a long battery life for intense workdays. With up to 15 hours\* of battery life, you can stay efficient without worrying about running out of charge. Combining your PC with a ThinkVision monitor gives you more screen space to work on applications simultaneously and avoid distracting pop-ups on the PC.

### Collaborate effectively with ThinkPad X1 ANC Headphones

Every word is heard as this accessory mutes ambient noises with Active Noise Cancellation (ANC) and enables clear and effective meetings with 6 mics and Environmental Noise Cancellation (ENC), allowing you to stay focused.

### Access highly-skilled technicians with Lenovo Premier Support

Short wait times and faster, first-time resolutions frees up your IT team to focus on strategic tasks.

Time will always be a precious commodity. The right technology empowers your workforce to manage their day better. With the **Intel® Evo™ vPro® platform** and **Windows 10 Pro**, everything you need is in

**one package to equip your business** and delight your workforce.

**Get time on your side with Lenovo.**
