

# Enhance the patient—and clinician—experience.

ThinkCentre M60q Chromebox Enterprise

As the healthcare landscape rapidly shifts, with fewer healthcare workers and greater demand for care, it's vital that healthcare organizations optimize technology to increase operational efficiencies, boost revenue, and improve patient outcomes.

The cloud-first ThinkCentre M60q Chromebox Enterprise\* provides the formidable performance and secure technology to enhance the healthcare experience. Practitioners can reduce time spent on frustrating legacy systems and increase time spent on patient care. With the computing power and flexible design of the compact 1L ThinkCentre M60q Chromebox Enterprise, doctors, nurses, EMTs, and other healthcare workers stay connected to critical information—no matter where they are.

\*Chromebox Enterprise models come from the factory with the Chrome Enterprise Upgrade, which enables full management and business capabilities. Can also be purchased as a Chromebox without the Chrome Enterprise Upgrade.

## Improve the patient experience.

The ThinkCentre M60q Chromebox Enterprise is ideal for secure self-service kiosks and personal devices for patient check-in, as well as for informative digital signage. With ChromeOS, the intuitive, easy-to-use interfaces keep patients at ease, while the fast access to patient information means providers increase face-to-face time with patients for more personalized care.
