

Transform the contact center.

ThinkCentre M60q Chromebox Enterprise

Today's contact centers face unique challenges, including a high-churn workforce, cybersecurity threats, and complex legacy systems. The new cloud-first ThinkCentre M60q Chromebox Enterprise with ChromeOS enables contact center agility while improving agent productivity and securing business data. With the intuitive experience, quick boot up, and updates in the background, downtime is a thing of the past. Plus, stress-free device deployment and remote management allow IT teams to focus on workflow innovation.

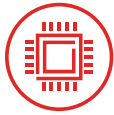

Delivering high-performing power and integrating into existing infrastructure with ChromeOS, the compact ThinkCentre M60q Chromebox Enterprise is the ideal solution for contact center efficiency and productivity.

- Lenovo ThinkShield for end-to-end security
- Titan C security chip from Google
- Kensington lock to keep hardware secure
- No antivirus or security updates needed—software and OS auto-update without interruption

environmental diligence

The ThinkCentre M60q Chromebox Enterprise supports Lenovo's commitment to sustainability. In fact, 100% of ThinkCentre models released after 2019 contain closed-loop post-consumer recycled plastic, and 100% of the Intel® Core™ vPro® processors used in Lenovo ThinkCentre products are made with conflict-free minerals. And by 2025, 90% of plastic packaging by weight for Lenovo devices will be made from recycled materials.

ChromeOS devices consume as much as 46% less energy than comparable competitor devices.¹ The cloud-first platform continuously improves to become more sustainable over time, resulting in lower overall device carbon footprint. And with the power management capabilities of ChromeOS, the ThinkCentre M60q Chromebox Enterprise delivers efficient charging and optimizes device performance.
