Lenovo recommends Windows 11 Pro for Business.

Lenovo ThinkPad X1 Yoga Gen 8

Lenovo

Hybrid and remote work arrangements are important for SMBs. But working onsite is still a dominant requirement for SMBs, to ensure they have efficient and productive workplaces, which also requires tech that just works. Tech that lets you focus on growing your business.

25%

of organizations across APAC are redesigning offices to bring employees back onsite, to improve operational efficiency.²

Up to 30%

of budget is being used to enhance office team collaboration and hybrid working.²

68%

of organizations are focusing on boosting office attendance or improving work efficiency.¹

Benefits of onsite work:

Boost collaboration

Build employee and customer relationships

Maintain company culture

Business-grade reliability for the office

An onsite workforce demands reliability and performance to get the work done as efficiently—and comfortably—as possible.

Performance

Ergonomics

Reliability

With devices that boost efficiency, enhance productivity, and keep your SMB secure, there's a reason why SMBs turn to Lenovo for the right technology solutions.

Lenovo ThinkPad P1
