Lenovo ThinkSmart Bar 180

# Meet like you're all in the same room.

Today, video meetings are simply the way collaboration occurs in the hybrid workplace and with global teammates. A company needs technology that engages employees and enables them to do their best work without being overwhelmed by complicated systems.

Lenovo ThinkSmart Bar 180 provides just that. Featuring a modern form factor and best-in-class AI-accelerated performance, ThinkSmart Bar 180 is a premium conference bar that delivers a superior audio and visual experience. This stylish and easy-to-set-up meeting room bar will transform your small and medium meeting rooms into next-generation collaboration spaces in no time at all.

# Engage naturally—from anywhere.

With premium audio and video features, the ThinkSmart Bar 180 creates a truly immersive meeting experience. Impressive AI features follow the conversation, adjusting the view and audio to allow remote participants to feel like they're sitting around the table, even if they're across the world.

Unique 180° field of view with 3-camera system delivers wall-to-wall room coverage.

Dynamic Composition automatically detects up to 4 people/clusters in the room, with prioritization given to recent speakers.

Intelligent Zoom dynamically adjusts framing for optimal view as people move about the room.

Virtual Director helps remote participants follow the flow of conversation naturally by automatically zooming into active speakers and smoothly managing transitions.

Ideal for small to medium rooms.

Intelligent Meeting Space defines selected room boundaries, customizing meeting area (ideal for glass-walled and open-plan spaces).

Precision voice detection and high-fidelity sound lets participants hear and be heard clearly.

Active monitoring of room provides data on usage and capacity, live safety guidance, and insights.

Intelligent Speaker identifies the voices of up to 10 speakers in a room for intelligent speech features like live transcription.

Get real-time whiteboard capture and streaming—no additional content camera needed.
