Lenovo builds connections to inspire and enable learning anywhere.

In the landscape of modern education, where every corner of a campus pulsates with potential, Lenovo stands as a beacon of innovation and connectivity. Our vision extends beyond products to address critical educational challenges with intelligently designed spaces that foster discovery and enable seamless learning experiences.

Embracing the educational journey's strategic complexity, Lenovo's solutions reimagine the very concept of learning environments. We help institutions harness the power of AI to ensure that each space, whether a high-tech lab or a virtual classroom, is a catalyst for creativity and collaboration. We recognize the hurdles—reviving student engagement, supporting educators, and fortifying against cybersecurity risks.

Lenovo's AI-enhanced approach not only amplifies the effectiveness of educational spaces but also equips them with predictive insights for a proactive educational journey.

As we redefine educational spaces, we craft a strategy focused on sustainability, ethical innovation, and partnership. Lenovo is committed to empowering educators, inspiring learners, and elevating institutions to new heights of achievements—anywhere, anytime.

Join us in this journey of transformation, where every Lenovo-powered space is a step towards a smarter, more connected educational future.

Pave the way for future innovations

Lenovo is proud to partner on the Intel® Skills for Innovation Initiative.

The Lenovo and Intel® Skills for Innovation (SFI) program is designed to prepare students for future success by integrating cutting-edge technology into education. This program, offered to institutions using Intel-powered devices, includes:

- Lenovo expanding classroom starter kits with 6 additional modules for Lenovo customers.

- Intel SFI lessons and professional development, helping educators integrate emerging technologies into their curriculum.

- A focus on building critical skills sets and mindsets like computational and design thinking.

Reinventing technology's role in education to empower students to become the next generation of innovators.

Hybrid Classroom

Embrace next-level solutions for hybrid learning.

Smarter builds collaboration and connections for hybrid and virtual learning.

Lenovo recognizes the critical role of technology in education as instructional models evolve, including hybrid and virtual courses. By leveraging robust devices and hardware solutions tailored for collaborative learning, Lenovo ensures educators and students remain connected and engaged. With easy-to-manage systems like Google Meet Series One and ThinkSmart Core Kits, Lenovo addresses diverse classroom needs, simplifying the transition between in-person and remote learning environments for a seamless, adaptable, and effective educational experience.

Lenovo VR Classroom and ThinkReality VRX

Smarter
awakens potential.

Transforming education for tomorrow's leaders, Lenovo's VR solutions, including VR Classroom and ThinkReality VRX, offer immersive and interactive learning experiences. Lenovo VR Classroom breaks the boundaries of traditional learning, ideal for K12 and higher education in today's hybrid learning environments. It integrates hardware, software, and comprehensive management systems, making virtual reality lessons practical and applicable.

The ThinkReality VRX headset further elevates this experience. This lightweight, all-in-one VR device, powered by Qualcomm® Snapdragon™ XR, brings advanced 6DoF and high-resolution capabilities for mixed reality in education. Its design and supportive services accelerate academic success and ROI, making it a pivotal tool in modern educational settings.

Together, Lenovo VR Classroom and ThinkReality VRX are reshaping immersive learning, simplifying complex concepts, and expanding educational horizons.

Smarter technology for all | Lenovo

Lenovo VR Classroom

Engaged learners.
Meaningful learning outcomes.

Open, flexible, and secure, Lenovo's VR Classroom solution has everything needed to access, launch, and customize VR learning to enhance your curriculum. Educators can find—or create—great content, plan innovative lessons, and deeply engage students in immersive learning experiences with this complete VR solution.
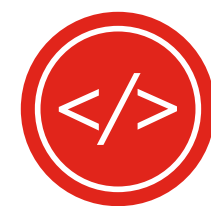

Software

Immersive Learning Hub

- **Classroom Management:** Manage VR lessons and push content to the headsets during the session
- **Content Management:** Sort and Filter your content in an easy to use interface
- **Device Management:** Secure cloud-based platform for updating and monitoring your VR headsets

Collection of curated educational content from vetted providers

- Veative: Immersive content for STEM, History & Culture, and more
- Wild Immersion: Stunning 360 wildlife experiences in Africa, Asia, and Amazonia
- Uptale: Enables you to create your own interactive immersive learning experiences
- VictoryXR: Asynchronous, immersive, hands-on, virtual reality lessons.
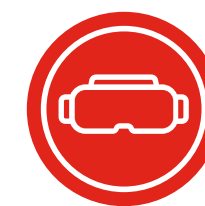

Hardware

P1 Pro Headset from DPVR, customized for education by Lenovo

- Lightweight, all-in-one device
- XR1 Processor, 2560 x 1440 resolution, 3 DoF controller, 6GB RAM + 128 GB storage

Carts and cases available based on your configuration

Services

- Lenovo Integrated Solution Support and Warranty for easy, dedicated end-to-end support for 2 years.
- Customized professional development (in person or online)
- Installation and deployment services

Optional hardware, accessories, and professional development are also available. Engage your students to embrace new perspectives. Contact your Lenovo rep to learn how.

Esports

With a **custom esports solution** from Lenovo, it's game on.

Esports fosters an inclusive environment, free from most physical restrictions, for students who may not be interested in or are unable to participate in traditional sports. Students gain solution-finding and team-building skills, boosting self-confidence along the way. Some students can even earn scholarships as colleges and universities are now building varsity esports programs. Businesses are also starting to see what skills gamers can bring to the workplace.

Lenovo Esports has experienced esports consultants who listen and can help you determine your next steps with a number of professional services and solutions to achieve your goals. To round it off, we offer a fantastic set of products and accessories in the Lenovo Legion and ThinkStation workstation lines, all backed by education warranty and leasing options.

Smarter technology for all Lenovo

Game-winning gaming

With all the potential that esports offers, you'll want an approach that helps you get the most out of your program. Lenovo's team of experienced gaming professionals is with you every step of the way to begin or expand your K12 or university esports programs.

Discovery

Lenovo will help you envision what your esports program could be like and share best practices from other schools.

Consultation

Our experienced gaming professionals are standing by to advise and consult.

Goal Setting

Lenovo can help you future-proof your program and identify key success metrics to track over time, ensuring esports is a smart, long-term investment.

Custom Solution

Lenovo offers custom end-to-end solutions to help fill in any gap on your Esports roadmap, from install and design to operations and expansion.

A refreshingly simple approach to device management

Focus on what you do best. Lenovo TruScale Device as a Service (TruScale DaaS) manages your device lifecycle, so educators and ITDMs can ensure better learning outcomes.

Flexible Payment Options

- Simple monthly cost includes devices, software, and services.
- Delivery of the latest devices.
- Maximize cost efficiency with custom solution built around your institution's unique requirements.
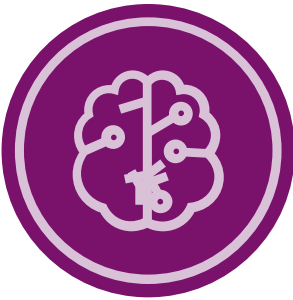

Education-Specific Software & Solutions

- Support modern classrooms with a DaaS solution that can grow and change with your institution.
- Empower learning both inside and outside of the classroom with Hybrid Classroom and VR Classroom solutions.
- Select your custom software and solutions with options from advanced classroom management to airtight security with protection from cyberbullying and illicit content.
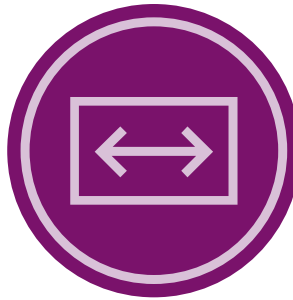

Flexible Service Support

- Keep users productive and devices running smoothly with Premier Support.
- Protect devices with Accidental Damage Protection, Onsite and School Year Warranty Services, and ThinkShield security.
- Leverage expert end-to-end lifecycle management services, including configuration, deployment, device management, warranty repairs, and secure asset disposition.

TruScale DaaS for Esports

- Keep your esports devices up to date as technology advances.
- Affordable payments with gaming products, services, and even furniture included.
- End-of-term flexibility to meet your school's needs.
