ThinkVision M14d Mobile Monitor
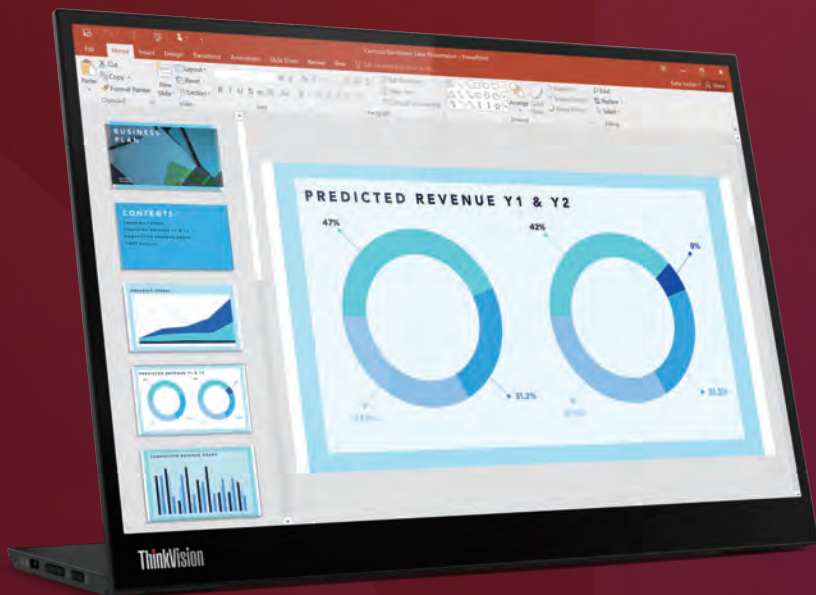

Stunning visual performance on the go.

The light and portable mobile monitor for those going places.

Today's professionals want to make the most of their time – whether you are traveling, waiting at airport lounges, meeting clients in hotel lobbies, making presentations, or closing a big deal, you live life on the go. And ThinkVision M14d Mobile Monitor is a brilliant solution to your long-felt need. With the ThinkVision M14d Mobile Monitor, you actually have a fully functional and practical second screen that hooks up to your notebook easily. The ThinkVision M14d Mobile Monitor, with its super-slim and light form factor, is designed to make even complicated data work easy, on the go. Its 14-inch screen, 16:10 aspect ratio (compared with traditional 16:9 aspect ratio, 14-inch screen is adding the 5.64% active area), 104 PPI (an increase in 19.9% pixels than FHD screen), 2240 x 1400 resolution screen with 100% sRGB color gamut and 105% sRGB color space ensures rich, clear imagery and true-to-life colors. This mobile monitor comes with two Type-C[1] ports for quick upstream and downstream connectivity, allowing you to connect your notebook effortlessly. In addition, the Type-C[1] ports have the 'power pass-through' feature that allows you to power the monitor and charges your notebook simultaneously. The mobile monitor also has the Natural Low Blue Light technology which reduces the harmful blue light to make viewing a comfortable and stress-free experience without color distortion. ThinkVision M14d – the slim and smart monitor that makes you more productive, even when you are on the move.

The all-out visual performer

The ThinkVision M14d Mobile Monitor has a 2.2K, 104 PPI, 2240 x 1400 resolution screen with IPS panel that offers excellent, sharp performance, and superb visibility from wide viewing angles. Its 16:10 aspect ratio and its 'mirror and extend' feature means that it is perfectly aligned with the viewing format of your 16:10 notebook. This mobile monitor comes with a 100% sRGB color gamut and 105% sRGB color space which is consistent with notebooks and displays rich, true-to-life colors. No wonder it adapts easily to your mobile lifestyle and gives your personal productivity a big boost.

Power pass-through for extra convenience

The ThinkVision M14d Mobile Monitor will delight you with its connectivity and convenience. This monitor comes with 2 x USB Type-C[1] ports with up to 65W power pass-through. This unique feature means you can power your ThinkVision M14d Mobile Monitor and charge your notebook simultaneously while keeping your desk clutter-free. Now, you don't have to worry about charging multiple devices. Just charge your notebook and connect your mobile monitor for uninterrupted performance.

Portable & comfortable

Weighing in at less than 600 grams[2], this slim, lightweight, ultra-portable monitor's 14-inch screen is just 4.6 mm thick, making it very easy to carry. The ThinkVision M14d Mobile Monitor also comes with Natural Low Blue Light technology that protects your eyes from harmful blue light enables you to have a strain-free viewing experience without color distortion. Even when you are viewing it for long hours. Its Mount feature helps you adjust the monitor for enhanced ergonomics and comfort. In addition, the ThinkVision M14d comes with a height adjustment support feature that further enhances the user experience.

ThinkVision M15

LIGHTENED, ENLIGHTENED, EXTENDED PRODUCTIVITY.

LIGHTEN THE LOAD DOING BUSINESS ON THE ROAD.

Make productivity portable with ThinkVision M15. Its stunning form factor is meticulously designed to expand and match the screen real estate of multiple kinds of laptop, this light and slim 15.6-inch FHD resolution mobile monitor weighs just 860g[1] while its head measures a mere 6 mm thick, making it perfect for multi-screen multitasking like spreadsheets in an airport lounge or sharing a presentation with a prospect in a restaurant.

Equipped with two identical USB Type-C[2] ports, the monitor gives users indispensable Power Pass Through capability. That means they can power both the monitor and the laptop with a single power adapter, up to 65W[3], plugged into one port with a USB Type-C[2] cable connected to the computer from the other port. Or they can simply power M15 from the laptop using just one USB Type-C[2] connection.

With safety ever in ThinkVision's minds, the M15 mobile monitor also comes equipped with TÜV Rheinland certified Low Blue Light technology, which protects users from eyestrain caused by certain frequencies of blue light. Simply turn it on with the press of a button.

FEATURES OF THINKVISION M15 MONITOR

Lighter. Slimmer. Winner.

M15 does the heavy lifting of your productivity in a surprisingly light package. Just 860g[1] and measuring no more than 6 mm through its head, this considerately crafted mobile monitor doubles users' screen space with a 15.6-inch, In-Plane Switching panel, FHD display, the perfect resolution for a monitor of its size. With expanded screen real estate, work such as comparing detailed spreadsheets is made so much easier, multitasking is a breeze and colleagues or salespeople can mirror or extend their screen to give prospective clients a presentation on their own screen, face to face, even in public spaces. Thanks to M15's integrated, fold-out stand with height adjustment, the monitor will raise up to align with a laptop for the most seamless user experience.

USB-C

Stay in charge with Power Pass Through

M15 handles power with elegance and simplicity. Its true one-cable design solution means it can run off a single USB Type-C[2] cable that delivers images, audio and data, as well as power, to the monitor from a connected laptop for supreme convenience on the road. But add to that its second, identical USB Type C[2] port and its invaluable Power Pass Through function allows both the monitor and the laptop to be charged from a single USB Type-C[2] power plug. On top of enjoying this convenient design for power, users can also connect flash disks, earphones or other compatible USB Type-C[2] devices through the monitor's second USB Type-C[2] port when it's not in use.
XS size, XL UX

Taking M15 on the road may mean more hours of operation. With that in mind, it's thoughtfully designed to care for users' eyes by protecting them from eye fatigue and strain caused by harmful, high-energy blue-wavelength light. This is done with TÜV Rheinland Low Blue Light certified technology that can be switched on in an instant and left on for as long as users choose. Thought has even been given to the unboxing experience, with newly designed, easy-opening packaging that takes just seconds to have the monitor in users' hands. To keep its already modest weight down, M15's protective sleeve is lightweight, modern and elegant. And it even mounts to the wall by a VESA 100 mm fixture for a more stable solution when users spend time in the office.

PORTABLE WITH A TOUCH OF INSPIRATION

Scale new heights of productivity, flexibility, and style with a touch-enabled mobile monitor. The 14-inch Full-HD slim and light ThinkVision M14t has a 4.6 mm thin monitor head and weighs just 698 grams¹ offering you an extra display whenever you need it. With 10-point touch functionality, enjoy the freedom to design, animate, present, and annotate on an intuitive monitor interface. More than just a display, the M14t comes with a pressure-sensitive active pen for precise sketching and easy navigation. It also has a customized sleeve for protection, and an L-shaped dongle for vertical deployment and better cable management. This compact USB-C Hub Monitor with two USB-C ports works seamlessly with not only the Lenovo Think family laptops but also with other compatible USB-C devices, like your smartphone. The monitor offers ease of use, especially while working on the go. Connect, present, pitch, and create with conviction on the M14t—at the office or on the go.

Portable Display with Picture-perfect Clarity	**Intuitive Touch Interface**	**Exclusive Accessory Combo for Ease of Use**

¹Actual weight and thickness may vary due to components, manufacturing process and options.

SEE MORE EVERYWHERE YOU GO

Built for mobile professionals, the M14t's 14-inch Full-HD IPS panel display with super-narrow bezels ensures crisp and accurate visuals with impressive viewing angles, making it ideal for presentations. This sleek ultra-portable monitor with tilt function (-5° / 90°) and a height-adjustable stand (up to 11 mm) allows users to work in a flexible and comfortable viewing position in any work environment. Get a clear view of the display, whether you are outdoors or in an office, with 300 nits brightness capability. Moreover, the TÜV Rheinland Low Blue Light technology lets you work with minimal eyestrain.

DELIVER AS ONLY YOU CAN

Drag, draw, annotate, and collaborate, no matter where you are. The ThinkVision M14t is 10-point touch-enabled for an intuitive interactive experience even on the go, allowing you to create with a personal touch. It comes along with an active digital pen that supports 4096 levels of pressure, so you can draw and sketch with unmatched precision. Switch your view in no time with auto-rotation sensors that don't require software or driver installation. Additionally, an intuitive on-screen-display (OSD) menu enables easy access to brightness, contrast, and rotation settings.

CONNECT BETTER, WORK EASIER

Built with an innovative dual USB-C design, the M14t can duplicate or extend your screen—be it your smartphone or laptop²—so you're always productive. With data, power, and media capabilities of USB-C, you can create a presentation, transfer data to a hard drive, and enjoy the unique power pass-through function. With dual USB-C port, the power pass-through function supplies power to the M14t and the compatible USB-C device connected to the monitor simultaneously via one AC/DC adapter.³ Enjoy the option of a vertical display setup and better cable management for a clean, easy desktop setup with the L-shaped dongle.

Power Pass-through via USB-C
