

# ThinkPad USB-C WIRELESS COMPACT MOUSE

## THE MUST-HAVE COMPANION FOR ON-THE-GO PROFESSIONALS.

Whether it's in the office or on-the-go, the ThinkPad® USB-C Wireless Compact Mouse is designed to enhance productivity, everywhere. Compact, comfortable, and able to work on most surfaces, this pocket-sized mouse has a blue optical sensor, offering seamless 4-way precision scrolling and up to 2400 on-the-fly DPI adjustment. It also comes with a Lenovo USB-C Unified Pairing Receiver that lets you save time and effort by pairing your ultrabook with up to eight input devices, such as mice and keyboards.

### WHY YOU NEED THINKPAD USB-C WIRELESS COMPACT MOUSE

#### Get More Done, Seamlessly

Take productivity levels to the max with a truly portable mouse that works with precision on almost any surface. Key features include seamless 4-way scrolling (left, right, up, and down) and on-the-fly adjustable DPI controls.

#### Eight Can Go Into One

Now, you can wirelessly pair an ultrabook with up to eight input devices, including keyboards and mice, with just one Lenovo USB-C Unified Pairing Receiver. In doing so, it instantly transforms that often underused USB-C port into a world of possibilities.

#### Smart by Nature and Design

The Lenovo USB-C Unified Pairing Receiver is designed to help on-the-go professionals make the most of their ultrabooks. Being asymmetrical, it does not block other ports and can also be used to replace a lost unifying receiver.
