Built on Intel vPro® Enterprise with up to Intel® Core™ i9 processor for unmatched performance, the Lenovo ThinkCentre M90t Gen 5 tower desktop delivers enhanced connectivity, AI acceleration, and unique security technology. This customizable desktop with versatile connectivity and impressive expandability enables awe-inspiring productivity. Power through administrative tasks, data-intense projects, and graphic-heavy jobs with Lenovo’s AI enhancements. Plus, the innovative Smart Cable enables laptop-desktop collaboration to further enhance your multitasking efficiency.

Experience limitless creativity with Intel® UHD 770 graphics or optional discrete GPUs with local graphics AI processing. ThinkShield end-to-end protection and the Smart Power On feature amplify the chip-level security of the Intel vPro® platform to provide a safe, world-class business PC solution. Green certifications and use of recycled materials make this powerhouse as good for the environment as it is for productivity.
SMART PERFORMANCE
Transform every digital task with Lenovo’s innovative AI-accelerated features to enhance performance. For intense multitasking and data-heavy projects, this Lenovo ThinkCentre prioritizes power usage, distributing the boost you need when and where you need it, all while learning along the way. Your device always stays quiet and cool, with the AI-driven fan control, which improves the temperature and noise experience. To improve sustainability, power consumption is optimized to enhance per-watt energy performance with every task. With our Sustainability Services, Lenovo embeds sustainability into every stage of the device lifecycle, from design and manufacturing to use and return.

PREMIUM PRODUCTIVITY
This Lenovo desktop tower is powered by up to Intel vPro® Enterprise with up to Intel® Core™ i9 processors for real-world, business-class performance, as well as up to four DDR5 UDIMM (5600MHz) and up to 128GB memory support. Graphics options include integrated Intel® graphics or several of the latest discrete GPUs with local graphics AI processing, enabling users to power through renderings, video editing, and VR/AR content creation with ease. Plus, Lenovo Deployment Services provide a flexible and efficient experience across the organization to ensure IT readiness from day one.

FLEXIBLE VERSATILITY
This Lenovo ThinkCentre offers multiple I/O ports and flexible expansion slots to customize any workspace, including the support of up to four additional displays. Get innovative device collaboration with the Smart Cable, with easy USB-A and USB-C connection to support all your peripherals—even another laptop or tablet. Share device control, data, even screen projection between devices with this intelligent feature that supports USB 3.2 data transfer speed. Looking for flexible support? With Premier Support Plus, Lenovo engineers are available 24/7/365 for the ultimate IT support experience.

SECURE PROTECTION
Get the end-to-end protection of Lenovo ThinkShield plus Intel vPro® Enterprise to provide a combination of hardware, software, and platform-level security for next-gen data and business protection. The dTPM 2.0 chip encrypts passwords and data, while embedded control (EC) self-healing and BIOS-based Smart USB protection help avert cyberthreats. And with the Kensington™ Lock slots, chassis e-locks, and more options to provide physical security, this powerful tower delivers on confident security.

Lenovo Services
Lenovo offers support for your ThinkCentre devices, as well as your commitment to sustainability.

**LENOVO PREMIER SUPPORT PLUS**
Resolve issues quickly with easy break/fix support with 24/7/365 access to Lenovo expert engineers for a seamless remote fix, boosting productivity, device longevity and supporting circularity. AI-powered proactive and preventive alerts provide insights before issues arise. Benefit from next-business-day onsite labor and parts prioritization*, Accidental Damage Protection for mishaps such as drink spills, Keep Your Drive, and more.

**LENOVO CO2 OFFSET SERVICES**
Lenovo’s CO2 Offset Service makes offsetting carbon emissions simple and within the control of the customer. We offset the carbon emissions across the average lifecycle associated with each of our devices by providing the option at point of purchase. These offsets help support climate action projects verified by United Nations, Gold Standard®, and Climate Action Reserve.

**ASSET RECOVERY SERVICE (ARS)**
Lenovo’s Asset Recovery Services (ARS) enables secure destruction of data, helps reduce e-waste, and offers a fair market value for your end-of-life IT assets. The service also supports equipment from any manufacturer including PCs and tablets, monitors, servers, phones, printers, copiers, and networking equipment.

Accessories

**Lenovo ThinkVision P24q-30**
Get fast and efficient multitasking productivity with the crisp, clear views of this generous 23.8” QHD panel. High image quality at every angle with 99% sRGB and the ability to attach additional screens with daisy chain enrich collaboration. Plus, the flexible ergonomic stand adjusts for maximum comfort.

**Lenovo Performance FHD Webcam**
Enjoy pixel-perfect high-definition FHD 1080P video with 1/2.9-inch RGB sensor for crystal clear videoconferencing. Two integrated mics ensure clear audio from every angle while 95° lens plus 360° pan/tilt controls capture every visual.

**Lenovo Professional Wireless Rechargeable Combo Keyboard and Mouse**
A revolution in productivity and design, this full-size keyboard features scissor switches that create an elevated typing experience. Its mouse, marvelously crafted from bio-rubber, keeps you comfortable all day and is equipped with an impressive 4,000 DPI sensor. Plus, both the keyboard and mouse are made from eco-friendly 65% recycled material that protects the environment.

**Lenovo Wireless VOIP Headset**
Get a next-level conferencing experience with advanced DSP technology for precise mic and speaker tuning, along with a 24-hour 6500mah battery. Ensure every sound is free of echo and distortion with innovative algorithms like adaptive beamforming, automatic gain control, and double-talk control. An omnidirectional 360-degree quad-mic-array and true wideband audio ensures every voice is heard.
