Does the perfect business notebook exist? We think so. Introducing the new Lenovo ThinkPad X1 Carbon Gen 12, boasting AI transformation, an enhanced user experience, and a more responsible design than ever. Starting with its minimalist iconic silhouette in Eclipse Black that’s big on cool, to the premium OLED display with 120Hz refresh rate and high-quality 8MP MIPI camera, this next-gen clamshell delivers attention-getting features that boost confidence.

But what elevates this Lenovo ThinkPad above the PC crowd is its capacity for powerful productivity. Built on the Intel® Core™ Ultra processor with an integrated AI engine (NPU), this notebook unlocks AI experiences with AI acceleration for security, manageability, and power efficiency. Plus, the built-in Intel® Arc™ Graphics provide up to twice the graphics performance, so you’re equipped to exceed project expectations every time. Other engineering upgrades, from the 44% larger thermal capacity to the enhanced keyboard with power-on key and accessibility features, combine to keep the Lenovo ThinkPad X1 Carbon at the top of its class.

**Lenovo ThinkPad X1 Carbon Gen 12**

Unlock new AI experiences
Lenovo ThinkPad X1 Carbon Gen 12

**FUTURE-FOCUSED NOW**
The AI transformation is here, and the Lenovo ThinkPad X1 Carbon equips you for tomorrow's IT vision. With an Intel® NPU boasting 11 TOPs capable of Microsoft Studio Effects, the Intel® Core™ Ultra processor is ideal for power-efficient, sustained AI that boosts everyday productivity. This three-tier hybrid chip delivers significantly higher performance while lowering power consumption and raising security and manageability. Users get optimized performance while saving power for longer battery life and productivity when unplugged. Built on Intel vPro® and as an Intel® Evo™ Edition, this Lenovo ThinkPad gives IT what it needs—and users what they want. Top it off with seamless connecting to your iOS or Android smartphone with Intel® Unison for quick file transfers, voice calls, and text messages.

**DESIGNED TO IMPRESS**
This sleek notebook delivers matchless productivity with up to 64GB LPDDR5x memory and up to 2TB SSD storage, while Intel® Wi-Fi 7 and Bluetooth 5.4 capability create blazing-fast connections wherever work happens. Thanks to the 42% larger thermal capability and new rear venting, users experience an extraordinarily cool and quiet performance all day long. Crafted with extensive recycled materials, including 90% recycled magnesium (C cover), 55% recycled aluminum, and 45% hydro-aluminum (D cover), as well as PCC in its plastic parts, this new Lenovo ThinkPad is both beautiful and environmentally responsible. Plus, all the primary packaging is made from 100% recyclable bamboo.

**INCOMPARABLE UX**
Slimmer and lighter, this latest-gen premium Lenovo ThinkPad still delivers a larger screen-to-body ratio at 89.2%, as well as a more impressive keyboard experience that includes the fingerprint reader on the keyboard and shifted function and control keys. Choose between a larger TrackPad or ForcePad, depending on your workstyle, for enhanced touchpad functionality. Plus, the addition of tactile marking on the keyboard assists visually impaired users to navigate with ease. A premium OLED display and 120Hz refresh rate create vivid visuals, while the new 8MP MIPI camera with AI capabilities like low-light video enhancement brings virtual meetings to life.

**SECURE AT EVERY LEVEL**
Lenovo ThinkShield delivers end-to-end peace of mind, including secure supply chain assurance, below-the-OS protection, and OS-to-cloud solutions. Built-in Computer Vision powers the camera's Ultra Human Presence Detection, preventing visual hackers and dimming or blurring the display to protect users. Plus, as part of Intel® Core™ Ultra processor and Intel vPro® technology, protection is turned up a notch (or 10) with AI-powered security capabilities that can help detect threats before they happen, including ransomware, cryptojacking, and software supply chain attacks, thanks to Intel® Threat Detection Technology (Intel® TDT).
LENOVO TRUSCALE DEVICE AS A SERVICE (LENOVO TRUSCALE DAAS)
This subscription model is an efficient way to manage your fleet of end-user devices, optimizing resources and costs while promoting circularity. Deploy just what you need and responsibly dispose of what you don’t. Supported by our suite of services, TruScale DaaS helps you prolong device usability and create a more sustainable end-to-end journey for your IT assets.

LENOVO CO₂ OFFSET PROGRAM
While minimizing and eliminating emissions is always the goal, carbon offsetting your IT fleet is another way to help manage your overall carbon footprint. We make it easy with a seamless, transparent process for Lenovo devices across your current IT fleet or new purchases—with a sustainability dashboard to view the offset metrics. The offsets are contributed to climate action projects verified by independent third-party organizations like the United Nations, CDM, Gold Standard®, and Climate Action Reserve.

LENOVO ASSET RECOVERY SERVICES
Hardware-agnostic Lenovo Asset Recovery Services (ARS) help mitigate end-of-life IT and data security risks. We reuse parts, refurbish devices, and recycle assets. Buy-backs help you fund future IT investments. And Lenovo PCs and infrastructure hardware can get a new lease on life through Lenovo Recertified Services.

ThinkPad X1 Carbon/Yoga Sleeve
Custom-fit sleeve that offers quick access to the device, as well as a pocket for accessories and storage loop for a pen or stylus. Exterior is premium black leather with a soft-touch gray microfiber interior.

ThinkPad X1 Presenter Mouse
Combo ergonomic mouse and virtual gyro laser presenter with highlight and magnify options. Pairs via dual-mode 2.4G wireless or Bluetooth® 5.0.

ThinkPad X1 Active Noise Cancellation Headphones
Lightweight headphones that provide professional conferencing sound quality with ANC/ENC settings. Connect or charge via USB Type-C or Bluetooth® 5.0.

Lenovo Sustainability Services
Partner with Lenovo to implement more sustainable, cost-efficient practices across the device lifecycle and make a meaningful difference in how you use technology.
Lenovo ThinkPad X1 Carbon Gen 12

Committed to sustainability

At Lenovo, we’re focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We’re determined to build a smarter future for all through the products and services we offer. And we partner with Intel, the industry leader in sustainable semiconductor manufacturing.

As we continue innovating to provide technology solutions that are more energy efficient and human centered like the Lenovo ThinkPad X1 Carbon Gen 12, we stay focused on empowering you to meet your own sustainability goals—and solve humanity’s greatest challenges.
