

Meet better in almost every room

Choosing the smart solution for hitch-free hybrid meetings

Certified for Microsoft Teams

Glitches, lagging, poor audio, distorted visuals. Tired of meeting room tech fails disrupting the flow of hybrid working? You're not alone.

The pressure is mounting

- Budgets are dwindling – there's increased pressure to do more with less.
- Employee expectations are changing – your people want to join hybrid meetings in the most simple, seamless way.
- Security is more crucial than ever – you need solutions that keep your data safe and secure.

Ready to perfect your hybrid meetings?

Here's how.

Keep glitches out of your meetings with Lenovo

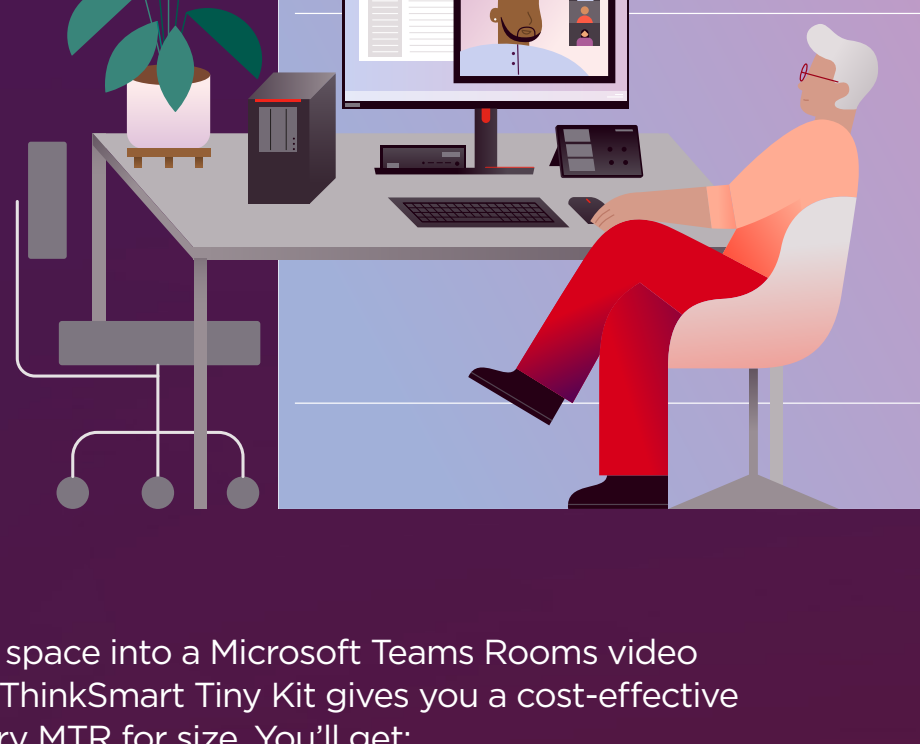

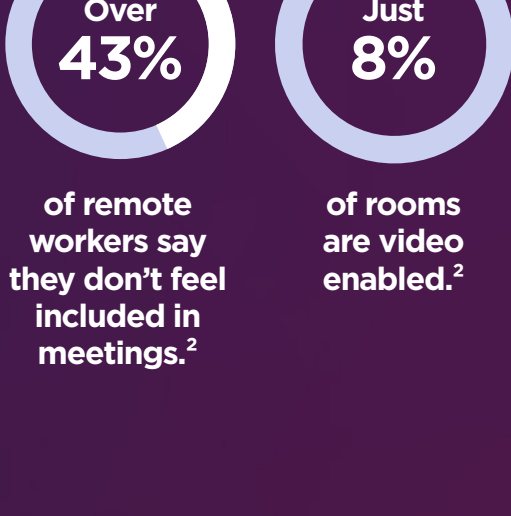

Lenovo's Microsoft Teams Rooms (MTR) solutions and accessories offer budget-friendly ways of turning meeting spaces into more collaborative, inclusive glitch-free rooms.

- Employees feel more connected
- Meetings are more productive
- IT teams are free from disruptions

Which is the right room for you?

Whether you're ready to jump right into Microsoft Teams Rooms or you want to stick to BYOD, Lenovo has the right set-up for you.

1. Microsoft Teams Rooms experience

Turn the smallest meeting space into a Microsoft Teams Rooms video conferencing space. Lenovo ThinkSmart Tiny Kit gives you a cost-effective way to try MTR for size. You'll get:

- Enterprise-grade features, security, and quality.
- A dedicated solution that doesn't depend on personal devices.
- Remote deployment, visibility, and troubleshooting with ThinkSmart Manager.
- Optimized experience (certified for Microsoft Teams Rooms on Windows 11).

The benefits

- Seamless Microsoft Teams Rooms experience.
- Employees feel more connected.
- A familiar, hassle-free user experience.
- Keeps data safe with built-in security features.
- Frees up laptop space.
- Provides access to advanced technicians 24/7.

Product:
Lenovo ThinkSmart Tiny Kit

2. Flexible BYOD meeting space

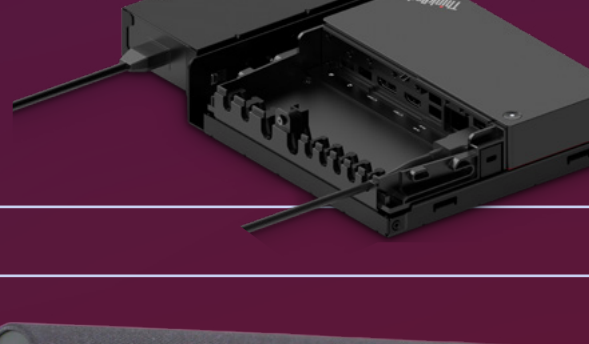

A flexible way to turn small spaces into video-enabled rooms, the Lenovo BYOD range gives you:

- Plug-and-play convenience
- Secure, reliable MTR-ready devices
- Premium AV quality, far beyond what laptops can offer

The benefits

- Upgrades meeting rooms in a cost-effective way.
- Enables employees to join meetings with any laptop.
- Delivers better employee experiences.
- Reduces disruption for IT teams.

Product:
ThinkPad Universal USB-C Smart Dock ThinkSmart Edition

Product:
ThinkSmart Bar 180

Minimal investment, maximum return.

- Deliver cost-effective MTR solutions.
- Exceed employees' expectations of hybrid work.
- Keep meeting rooms running efficiently and securely.

Ready to host hybrid meetings without the hitches?

Get in touch with your **Lenovo Account Manager** to discuss which solution is right for you.
