ThinkSmart Hub

Whether you’re outfitting a large enterprise or a small start-up, ThinkSmart Hub offers smarter collaboration technology for conference rooms of all sizes. This latest generation all-in-one Zoom Rooms system offers richer audio with full duplex speakers and dual array mics integrated in an even smaller, sleeker device.

In addition to being built on the familiar Zoom Rooms platform, ThinkSmart Hub is easy to manage using Lenovo’s custom-built ThinkSmart Manager software* along with the more personalized approach of Lenovo’s optional Smart Office Professional Services. Combine all this with the built-in protection of Lenovo’s ThinkShield security solutions and Intel vPro® platform, and you have a powerful tool for helping teams large and small to connect, share, and collaborate.

*Included for first year and available at an additional cost on subscription basis after that.
**ThinkSmart Hub**

**BUILT FOR COLLABORATION**
Built on the Zoom Rooms platform your employees already know and use, ThinkSmart Hub lets participants communicate via video, voice, or chat to collaborate about content in real time. Its rotatable 10.1-inch touchscreen display makes it easy for members of the group to share control of the meeting.

**CLEANER LOOK AND SOUND**
The newly redesigned ThinkSmart Hub delivers outstanding audio quality while taking up less space than ever before. It features four built-in full duplex speakers and four built-in dual array mics for fully immersive 360-degree sound. Plus, it is ultra-low noise certified for even better acoustic design. Sound isn’t the only thing that stays clear. With a 20% smaller footprint than previous generations and the addition of ThinkSmart One Cable mechanism, ThinkSmart Hub also reduces tabletop clutter for a cleaner, neater space.

**INCREDIPLY PRODUCTIVE**
One-touch meeting start makes it easy for any participant to initiate a Zoom voice or video conference without dial-in delays. ThinkSmart Hub also keeps IT professionals more productive thanks to Lenovo’s preloaded ThinkSmart Manager software.* This enables you to monitor, manage, and troubleshoot any number of ThinkSmart Hub devices from one, centralized location. Lenovo’s optional Smart Office Professional Services provide additional, personalized support every step of the way.

**ALWAYS SECURE**
Teams can collaborate fearlessly knowing ThinkSmart Hub is backed by Lenovo ThinkShield, the most comprehensive, end-to-end security solution on the market that combines industry-leading secure hardware, software, services, and processes. This includes options for BIOS locking, I/O locking, and USB Smart Lock. These security solutions are further complemented by the Intel vPro® platform, which brings together the best of Intel innovations to better safeguard data and devices, while a Kensington™ MiniSaver lock slot protects against physical theft.

---

**Lenovo ThinkSmart Manager**
This proprietary, optional manageability console gives your IT team the power to deploy, monitor, and troubleshoot your entire fleet of Lenovo ThinkSmart devices all from one place.

- Leverage a single console to remotely deploy, manage, configure, update, and resolve issues
- See real-time status by device and receive live at-a-glance issues lists
- Streamline actions across multiple devices with “apply all” option
- Generate reports to keep tabs on device issues and trends
- Take advantage of elevated security options

*Included for first year and available at an additional cost on subscription basis after that.

**optional services**

Lenovo’s Smart Office Professional Services offer personalized, end-to-end support to help you make the most of your ThinkSmart technology investment.

**ASSESS**
Lenovo is here to help identify any issues that could sidetrack your deployment by providing a detailed assessment of potential red flags and a follow-up report.

**DEPLOY**
From virtual deployment installation to integration assistance, Lenovo ensures your ThinkSmart devices function optimally in your office environment.

**MAINTAIN**
Our easy-to-follow do’s and don’t’s, remote check-ins, and assistance with ongoing security patches and updates take the stress out of updates and device changes.

**TRAIN**
Lenovo helps instruct all your audiences—IT and AV support teams, end users, and executives—on how to fully take advantage of your new technology.

**ONSITE**
Lenovo provides white glove treatment through a dedicated, on-site specialist who can complete physical set up, installation, configuration, and device troubleshooting.

Smarter meetings start with ThinkSmart.
