ThinkCentre M90n Nano IoT

Breeze through the most demanding tasks with the ultra-slim ThinkCentre M90n Nano IoT, powered by the latest-generation Intel® mobile processors and high-speed DDR4 memory.

When it comes to an IoT-ready platform, the M90n Nano IoT is a game-changer. It supports WiFi, Bluetooth®, and 4G/LTE WWAN wireless connections to efficiently transport your IoT data to the cloud or your data center. With a scalable IOBOX for additional connectivity, the M90n Nano IoT delivers expandability features optimized for industrial environments that operate a wide variety of devices.

With an innovative fanless design that guarantees efficient heat dissipation and with MIL-STD-tested device reliability, the M90n Nano IoT offers stable performance for uninterrupted productivity, even in harsh environments.
ThinkCentre M90n Nano IoT

**Boosts Productivity**
Powerful Intel® processors, superfast DDR4 memory, and PCIe SSD storage make everyday tasks faster and smoother now while also futureproofing against your edge computing needs.

**Unmatched Reliability**
The M90n Nano IoT is MIL-SPEC tested for its ability to withstand extreme temperatures and harsh conditions. That means it stays reliable and keeps you productive over the long haul.

**Compact Design**
With an ultra-small form factor (0.55L), the M90n Nano IoT packs more computing power into a smaller footprint. Easy to mount, it can be tucked behind a monitor, placed under the desk, or mounted on the wall—wherever you like it.

**Convenient Connectivity**
The M90n Nano IoT features four USB 3.1 Gen 2 ports and one display port, while an optional IOBOX with configurable serial interfaces, two POE ports, and DI/DO connectors provides even greater connectivity for manufacturing scenarios. The M90n Nano IoT also serves as a bridge, communicating with both LTE and dual LAN devices.

**Use Cases for M90n Nano IoT**

**Smart Retail**
Retailers can rely on M90n Nano IoT to power signage and capture data from multiple sources simultaneously, including sensors, traffic counters, and thermostats.

**Smart Manufacturing**
The M90n Nano IoT helps drive manufacturing and production automation, with faster data processing from operations to IT.

**Smart Healthcare**
M90n Nano IoT can replace thin client devices in healthcare settings, taking up even less space while offering full connectivity and computing capabilities.

**IT Benefits**

**Reliability and Stability**
This Nano is MIL-SPEC tested for durability, including unanticipated temperature shocks. Fanless design ensures efficient heat dissipation for improved performance.

**Security**
The TPM 2.0 hardware cryptoprocessor chip uses RSA encryption to protect user information, while the Kensington™ lock slot offers physical security against device theft.

**Flexibility**
An array of accessories allows this Nano to be securely mounted on a wall, under a desk, or behind a monitor using VESA mounts or DIN rails. The M90n Nano IoT is also Tiny-in-One compatible via Cube.

**Manageability**
Built for evolving IoT environments, the M90n IoT has been certified for Windows 10 IoT Enterprise, Microsoft® Azure IoT Edge, RedHat®, and Ubuntu®, making analyzing and reporting of devices in the network effortless.
ThinkCentre M90n Nano IoT

**Performance**

**Processor**
- Intel® Core™ Celeron® 4205U Processor
- Intel® Core™ i3-8145U/8145UE (IOTG) Processor
- Intel® Core™ i5-8265U Processor
- AMD® Ryzen Pro Dali FIPS Processor

**Operating System**
- Windows 10 Pro (64 bit)
- Windows 10 Home (64 bit)
- Windows 10 IoT LTSC

**Memory**
- Up to 8GB DDR4

**Storage**
- Up to 512GB M.2 PCIe SSD

**PSU**
- 65W 88% Adapter

**Connectivity**

**Front Input/Output Ports**
- 2 x RS-232
- 1 x USB Type-C (USB 3.1 Gen2)
- 2 x USB 3.1 Gen2
- 1 x audio combo

**Rear Input/Output Ports**
- 1 x DisplayPort (I3 IOTG 1x HDMI)
- 1 x USB 3.1 Gen2 Type-C (power-in, display)
- 1 x USB 3.1 Gen2 (3 SKU) / USB 2.0 (Celeron SKU)
- 2 xGbE LAN (AMD and Celeron only 1 x GbE LAN)
- 1 x DC-in

**Expansion Slot**
- 2 x M.2 PCIe SSD
- 1 x M.2 for WiFi/Bluetooth
- 1 x M.2 for 4G/LTE reserved
- 1 x USB type C/F

**Design**

**Dimensions**
- 179 x 88 x 34.5mm
- 7.04 x 3.46 x 1.35 inches

**Weight**
- 750g/1.65lb.

**Recommended Services**

Lenovo offers a comprehensive portfolio of services to support and protect your ThinkCentre investments, so you can focus on the business at hand rather than worrying about it.

**Premier Support**
Provides direct access to skilled and experienced Lenovo technicians for comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

**Accidental Damage Protection (ADP)**
Prevents the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops, or damage.

**Warranty Extension (1-Year Base, Up to 3 Years Total)**
This fixed-term, fixed-cost service helps you accurately budget for PC expenses, protect your valuable investment, and lower your cost of ownership over time.

**External Mechanical Peripherals**

- Monitor clamp
- VESA wall mount
- DIN rail bracket
- Nano IoT IOBOX

**Security**

- HW TPM 2.0
- UEFI Secure Boot
- Chassis intrusion switch
- Smart USB protection
- Kensington™ lock slot

**Reliability**

- MIL-SPEC 810H
- Yes

**Manageability**

- SMART POWER ON
- Yes, 2 independent displays

- MULTI-MONITOR
- Yes

- MIL-810G SPEC
- Yes

- MODERN STANDBY
- Yes

**Certifications**

- ROHS
- Ubuntu® Certified
- Red Hat® Certified
- Azure IoT Certified
- AWS IoT Greengrass® Certified

**Environmental**

- Energy Star®
- DVD Low Noise

**Safety**

- UL, CB, CCC

**Optional Accessories**

**ThinkCentre Nano DIN Rail Mount**
The VESA-standard mount attaches to any VESA-compatible equipment. This versatile device can be used separately or combined with other options for secure mounting functionality.

**ThinkCentre Nano Monitor Clamp**
Use this clamp to install your Nano IoT unit to a monitor to further save space.
