There’s a **smarter—and more secure—way forward.**

Educators are plunging into a high-tech learning world that often leaves them vulnerable to security attacks. Cybercriminals are taking advantage of the rapid increase in endpoint devices and wider software use, as well as the lack of security training. To effectively address today’s unique challenges for teachers and learners alike, you need to be more resilient and strategic about cybersecurity. Lenovo has created the **Smarter Way Forward** campaign to provide educators with insights and resources to reduce risk and defend themselves against hackers.

---

**4.8 million education devices**

4.8M education devices encountered malware in the last 30 days.¹

**90% of cyberattacks**

90% of cyberattacks start with phishing.²

**69% of school districts**

69% of school districts say they are proactive or very proactive at maintaining network security.³
