Modern IT

Lenovo

The New Workplace is Here.

Employees are using a wide variety of devices and applications. Teams are spread across geographies. People expect their work systems to be as flexible and accessible as their personal technologies. That leaves corporate IT in a tight spot. How do technicians deploy and manage devices in this turbulent new business model?

Lenovo Modern IT solutions are scalable and customized for your organization's unique requirements. Lenovo will give you the tools to support the new user-centric workspace while maintaining device control and security.

You have a vision for your organization's IT. Lenovo can help you realize it.

Modern IT Kits

No matter where you are on your journey to modern IT, Lenovo has a set of services designed for the unique needs of your organization.

Lenovo DIY Deploy Kit

48%

of companies say they have more apps than the business requires (Gartner)

Why This Kit?

For teams beginning their transition to modern IT, DIY Deploy offers the launch pad – a bundled set of Lenovo Services to help IT groups deploy and manage their Lenovo devices. With this solution, IT teams use Lenovo-developed provisioning tools to tackle preliminary work and implementation while end users receive everything needed to manage their own device setup.

Low degree of IT initial device setup effort

High degree of IT post-deployment maintenance

High degree of end user initial device setup effort

Wants the Microsoft Autopilot solution

Includes:

RTP

A custom preload, Ready to Provision (RTP) means swifter deployments and greater flexibility for IT teams.

DROP IN THE BOX

Reduce IT support calls with Drop in the Box, custom documentation your employees receive in their new device's shipping box.

ASSET TAG

Protect Lenovo Think devices with traceable, tamper-proof labeling.

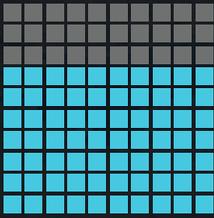

CUSTOM BIOS SETTINGS (RECOMMENDED)

Determine your organization's requirements for how systems operate before the operating system even loads. Lenovo will then deploy that BIOS.

MICROSOFT AUTOPILOT

As the first OEM PC Partner for Microsoft Autopilot, Lenovo offers cloud-based deployments just for Windows 10.

Lenovo Ready to Deploy Kit

70%

of executives cite lost productivity as the top consequence of poor IT performance (Network World)

Why This Kit?

Lenovo's Ready to Deploy Kit permits IT teams to control much of the imaging and versioning with Lenovo handling the preload. With limited setup tasks, end users can swiftly get to work with their new devices.

Medium degree of IT initial device setup effort

Low degree of IT post-deployment maintenance

Medium degree of end user initial device setup effort

Can integrate with any Enterprise Mobility Management (may want the Microsoft Autopilot Solution)

Includes:

RTP+

Ready to Provision Plus (RTP+) provides an even higher degree of control and customization when deploying PCs.

DROP IN THE BOX

Reduce IT support calls with Drop in the Box, custom documentation your employees receive in their new device's shipping box.

ASSET TAG

Protect Lenovo Think devices with traceable, tamper-proof labeling.

CUSTOM BIOS SETTINGS

Determine your organization's requirements for how systems operate before the operating system even loads. Lenovo will then deploy that BIOS.

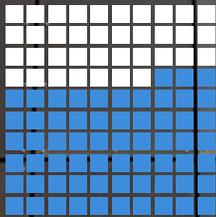

3-YEAR CLOUD RECOVERY AND MANAGEMENT

Swiftly recover from hardware and software failures, reducing costly downtime.

MICROSOFT AUTOPILOT (OPTIONAL)

As the first OEM PC Partner for Microsoft Autopilot, Lenovo offers cloud-based deployments just for Windows 10.

Lenovo Instant Productivity Kit

63%

of IT teams say they are overburdened (Techaisle)

Why This Kit?

For IT teams that are stretched thin, Lenovo's Instant Productivity Kit offers a comprehensive deployment and maintenance solution to ease upfront work. With this solution, Lenovo builds the image to your specs and end users are ready to work immediately.

Medium

degree of IT initial device setup effort

Low degree of IT post-deployment maintenance

Low degree of end user initial device setup effort

Can integrate with any Enterprise Mobility Management (may want the Microsoft Autopilot solution)

Includes:

RTP+

Ready to Provision Plus (RTP+) is a custom preload providing customers the option to load up to five scripted applications for a swifter deployment experience.

DROP IN THE BOX

Reduce IT support calls with Drop in the Box, custom documentation your employees receive in their new device's shipping box.

ASSET TAG

Protect Lenovo Think devices with traceable, tamper-proof labeling.

CUSTOM BIOS SETTINGS

Determine your organization's requirements for how systems operate before the operating system even loads. Lenovo will then deploy that BIOS.

ADS CLOUD PROVISIONING

Lenovo' Advanced Deployment Services (ADS) Cloud Provisioning is a portable, self-contained provisioning solution to simplify deployments.

3-YEAR CLOUD SUBSCRIPTION AND MANAGEMENT

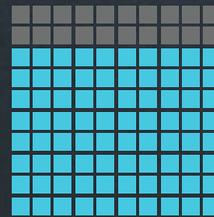

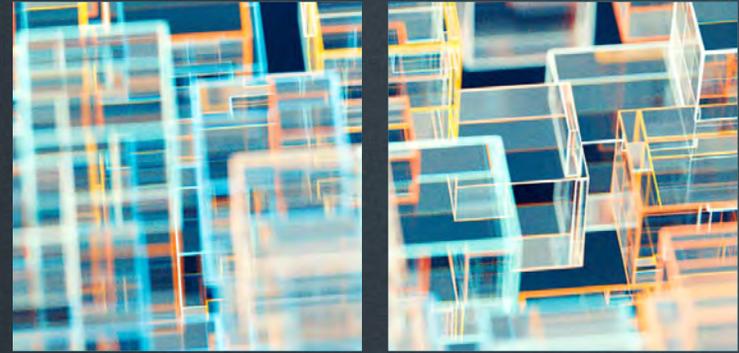

Enable the tools and capabilities of ADS Cloud Provisioning in the Cloud Deploy Platform.

MICROSOFT AUTOPILOT (OPTIONAL)

As the first OEM PC Partner for Microsoft Autopilot, Lenovo offers cloud-based deployments just for Windows 10.

Lenovo Services Lifecycle Solutions

Lenovo Modern IT Kits are only one facet of a much wider array of services available to help organizations plan, manage and support their Lenovo PC fleets. From Windows 10 transitions to Unified Endpoint Management, Lenovo has solutions to help companies embrace new workplace technologies.

80%

of executives say technology silos inhibit the ability to profit from new opportunities (Forrester)

PLANNING SOLUTIONS

Strategy, assessment and personal consultation

CONFIGURATION SOLUTIONS

Customized hardware and software setup (BIOS settings, imaging, device registration)

DEPLOYMENT SOLUTIONS

Services to get employees productive with Lenovo devices

SUPPORT AND PROTECTION SOLUTIONS

Relieving IT teams and keeping devices operating at peak performance

MANAGEMENT SOLUTIONS

Onsite help desks, security and compliance monitoring and management, inventory control

ASSET RESALE AND RECYCLE SOLUTIONS

Maximizing residual value while ensuring data security and environmental compliance
