EMPOWERING TODAY’S EMPLOYEES WITH TOOLS FOR PRODUCTIVITY AND FLEXIBLE WORKING
THE CHANGING LANDSCAPE AND THE MODERN WORKFORCE

The world of work is changing and the workplace reality that we held to be covenant is altering. Traditional ways of working are gradually getting replaced with a flexible and decentralized, based on employees’ working style.

Fluidity is here to stay and is slowly making a dent in the 9 to 5 system. This includes the often-time-consuming commute to and from work. Fluid working also greatly reduces this time wasted and makes it possible to be productive, when working, regardless the location.

Employers and business owners are offering an improved employee experience (EX) to the new workforce. However, sprucing up workplaces with a foosball table and beanbags is not the answer. There is a need for the right technology that naturally fits this fluidity.

80% will turn down a new job offer if there is no space for flexible working.

Flexible workplaces can experience up to 85% increase in business productivity.

2https://www.inc.com/peter-economy/the-millennial-workplace-of-the-future-is-almost-here-these-3-things-are-about-to-change-big-time.html
THE CHANGING LANDSCAPE AND THE MODERN WORKFORCE

The current global workforce is perhaps one of the most generationally diverse ever. Most workplaces have employees who started before technology became commonplace, a generation that grew up with technology, and one born into a world run on advanced tech.

All three groups rely on technology in their everyday lives, and it is only natural that these expectations are mirrored in their workplaces. Flexible working, collaboration, and remote working come naturally to them.

Flexibility is so important that nearly half of workforce is willing to forgo “corner office” promotions for it.

Empowering your employees to work from anywhere and in a flexible manner also has the added advantage of keeping your business highly productive and agile.

Experiences in the office comes first.
HOW YOU AS A DECISION MAKER CAN IMPROVE EMPLOYEES’ EX

How then can you as an employer offer the best experiences at work?

It is possible to achieve great Employee Experience (EX) with the right tools; ones that match employees’ professional needs. Monitors is one such tool that can make a lot of difference in work output.

You can make significant improvements in EX with the right monitors that cater to your workforce’s main asks. A person in a clerical role will not have the asks from a monitor as a graphic designer; being aware of these requirements allows you to make the right decisions.

There is a wide-spread need to upgrade and re-invest in the latest in display technology.

Outdated monitors tend to suffer from color inaccuracy, poor ergonomics, affect eye health, or lack modern connectivity options. All of which make for a good reasons to take a step and upgrade.

ThinkVision monitors are more than just an interface between user and computer. They provide a cutting-edge display technology with business-grade visual experience, superior performance, and a design philosophy that puts people first. They can also be the center of your desktop and take both employee experience and business agility to the next level.

CHALLENGES IN THE MODERN WORKPLACE

The first step is understanding what the end users, your employees, want based on their job roles.

Here are some of the pain points that need to be addressed that users experience with their current monitor setup.

60% employees are not satisfied with their experiences at work¹

Employees across different job roles struggle with monitor issues that negatively affect their productivity and EX

¹Lenovo SMR Study commissioned with Forrester Research - July 2019
WHY THINKVISION T SERIES MONITORS

ThinkVision T Series monitors are created for today’s diverse workforce and their individualized workspaces.

Carrying the Think legacy forward, the monitors not only deliver exceptional display performance, but also offer smarter technology to match the modern work style. Offering a wide range of monitors with varied specifications like resolution, color performance, and aspect ratio to choose from, the T Series is designed purposefully.

Enabling smarter collaboration, select T Series monitors come equipped with in-built features that allow for effective collaboration, whether in the office meetings rooms or at their home offices.

T series also have USB-C Hub monitors* that create a monitor-centric desktop by offering a one cable solution to connect all your USB Type-C compatible peripherals. It works like a converter for audio, video, power and data.

Experience the extended utility of multiple peripherals all through one Type-C cable.

Ergonomically designed of T series monitors ensure employee comfort and convenience making for healthy workplaces.

ThinkVision T Series monitors enhance your work environment and contribute to a positive employee experience (EX).

*on select models only
WHY CHOOSE
THINKVISION T SERIES MONITORS

Wide range of monitors for different work styles and workplaces
Exceptional display technology for maximized performance
Smarter connectivity options for extended device usage
Tailor-made VoIP monitors for effective collaboration
Enhanced ergonomics for improved user experience
Design that’s easy to use and helps declutter desk space
**FINANCIAL ANALYSTS**

**SUPERIOR DISPLAY, IMPROVED ERGONOMICS**

Working on large datasets and numbers is part of their everyday job. When combing through several files across multiple spreadsheets and comparing values and cleansing datasets, a multimonitor setup is invaluable. If there is no scope for multiple monitors, an ultra-wide display will also come in handy.

**PRODUCT RECOMMENDATION**
- T27h-10
- T32h-20
- T32p-20
- T34w-20

---

**ARCHITECTS, DIGITAL CONTENT CREATORS**

**EXCEPTIONAL VISUALS BROADENED CREATIVITY**

Designing, drafting, and creating digital content is done by running several specialized software which require monitors that are visually accurate and true-to-life. Only then can the output be of the best quality. These are monitors made to aide content creators and professionals like interior designers and architects put forward their work effectively.

**PRODUCT RECOMMENDATION**
- T27p-10
- T32h-20
- T32p-20
- T27p-10

**OFFICE WORKERS**

**ADVANCED CONNECTIVITY EXPANDED CAPABILITIES**

Regular, every day office workers need reliability. Professionals with strict routines require monitors that help them work in the most efficient manner possible. They often work on multiple apps simultaneously and need high flexibility. Monitors that allow quick data transfer, easy connectivity to peripherals, and are compatible with their PCs are sought after.

Wide range of monitors for different work styles and workplaces

The ThinkVision T Series monitors are designed keeping in mind the versatility of today's evolving and demanding work environment. With screen sizes ranging from 17 to 34 inches these monitors are designed to fit in any workspace. They cater to a variety of professionals including content creators, researchers, analytics experts, coders, video producers, and designers.

Versatile screen size

Aspect ratios: The varied aspect ratios such as 21:9, 16:10, 16:9, and 5:4, and are built to complement various job roles and business environments perfectly.

16:9 monitors
Prove a wider field of display for modern professionals who need to multitask across applications all day.

16:10 monitors
Ideal for analysts, these monitors provide advanced display technology and 11% more screen area than 16:9 monitors.

21:9 monitors
Ultra-wide displays for when spreadsheets and datasets take up most of the day, like traders in the finance industry.

5:4 monitors
Suitable for basic admin tasks in public sectors such as banks and hospitals, these fit legacy and traditional systems.

2. Available on select models only.
Wide range of monitors for different work styles and workplaces

Multiple panel types:

In-Plane Switching panels offer viewing angles (up to 178° horizontally and vertically) and accurate color reproduction, offering vivid experience.

Vertical Aligned panels have better contrast ratio suitable for everyday tasks.

Thoughtful design:

3-side NearEdgeless chassis allows users to multitask effectively by placing two monitors side by side. This design comes with either In-Plane Switching or Vertical Aligned (VA) panels.

T Series monitors with NearEdgeless displays offer:

- Cohesive viewing experience to help users concentrate better and stay more focused
- Same screen size but larger viewing area for greater attention to details
- Convenient multi-monitor setup for effective multitasking

Monitors with 3-side NearEdgeless panel

2. Available on select models only
Wide range of monitors for different work styles and workplaces

RESOLUTION
Users can experience crystal-clear visuals with high-resolution options such as FHD, QHD, and UHD. With excellent contrast ratio, ThinkVision T Series monitors produce higher quality visuals that allow users to create and consume rich content.

Full-HD (FHD) display panel
Full HD offers a resolution of (1920 x 1080 pixels) for all types of users including public sector and front desk employees where everyday tasks include basic tasks like browsing, curating data, transferring files, and more.

Legacy Super Extended Graphics Array (SXGA)
SXGA with (1280 x 1024 pixels) could fulfill the needs of the traditional working and is more suitable for legacy accessories.

2Available on select models only
Wide range of monitors for different work styles and workplaces

RESOLUTION
Quad HD (QHD) display panel resolutions:

Quad high definition display offers a display resolution of 2560 × 1440 pixels for modern workplace workers like video editors and graphics designers. QHD provides clearer details with 1.44 times more pixels than FHD.

QHD displays are also typically larger in size than FHD monitors, so users get better clarity in a larger format. Video editors and those who work with color are likely to prefer a larger display with higher detail. For flexible workers, one QHD monitor fulfills the role of multiple smaller monitors, more so when there is a space crunch. The setup procedure of one monitor could also be simpler when compared to a multi-monitor setup.

- ThinkVision T27h-20
- ThinkVision T24h 20
Wide range of monitors for different work styles and workplaces

### RESOLUTION

**Ultra-high definition (UHD) and Wide Quad HD (WQHD) resolutions:**

UHD and WQHD displays offer spectacular visuals with vivid colors and exceptional clarity required for content creators.

A display resolution of 3440 x 1440 on WQHD display enables extended productivity. The ultra-wide nature of the display allows for a panoramic view, be it editing a storyboard, or looking at multiple spreadsheets.

4K or UHD resolution of 3840 x 2160 on monitors provide exceptional detail, regardless of what is viewed. With 4 times the number of pixels as an HD display, UHD monitors offer a view that is as true-to-life as possible.

COLOR PERFORMANCE

The ThinkVision T Series monitors deliver great color performance for content creators to work with enhanced color coverage. Up to 99% sRGB or 72% NTSC color gamut deliver vibrant and true-to-life colors. This enables users to work effortlessly on tasks like video editing, color correction, and photo retouching. This makes color consistency a standard for any usage.

Efficient collaboration has become imperative in today’s workspaces as the workforce is no more limited to the four walls of an office building. In fact, 75% of all employers\(^1\) feel that collaboration is “very important” in the workplace today. Advanced features such as VoIP functionality allow teams to collaborate effectively wherever they are.

### Collaborate without hurdles
- **FHD 1080p IR-RGB Camera** for crisp video perfect for calls
- Integrated **dual array microphone** and built-in **2x3W speakers** for immersive conferencing

### Privacy is a priority
- **FHD camera with IR function** that supports Windows Hello facial recognition allows users to log in instantly without typing passwords
- **ThinkShutter Camera Cover** ensures complete privacy during calls by allowing you to cover your camera with a flick
- **Auto Alarm privacy** automatically detects if the Camera/Mic are in use

### User experience takes precedence
- Comfortable **angle adjustable camera** with face-tracking always keeps users in frame
- **Full function LTPS stand** for ergonomic and healthy workspaces
- **Volume keys** with Mic and Speaker **Mute Function key** built into the frame, for quick access and minimal distraction

Smarter connectivity options for extended device usage

USB Type-C Hub along with multiple connectivity ports such as HDMI, DP, USB Hub, and VGA enable effortless connectivity to multiple peripherals.

A USB-C Hub Monitor forms a hub for user’s workspace. Equipped with the USB Type-C technology, the monitor can transfer data, video and audio, and delivery power via a single cable, making it a universal convertor for multiple input signals.

With USB Type-C Hub, users can experience:

- **Easy multitasking** by connecting to other laptops, keyboard, mouse, smart phones*, external storage and even printers to create a personalized desktop ecosystem
- **Fast data and video transfer** while enabling simultaneous charging of mobile devices with one cable
- **Optimized power consumption and cost efficiency** with Smart Power technology that dynamically controls the power supply
- **Less cubicle clutter** with a single cable serving multiple purposes
- **Elevated user experience** from the non-directional USB Type-C standard—it is always plugged the right way in
- **Easy to reach**—no need to bend to look for the ports, users can easily connect the devices to the monitor in one step

*Video transfer requires a phone with this capability.

The ThinkVision T Series monitors make modern and intuitive in-built technology more accessible to users.

Curved Screen Monitors Bring:

- **Total immersion**
  a screen-size of 34 inches with 1500R curved panel offers an immersive experience that helps users stay focused.

- **Enhanced productivity**
  Draws users closer to the content without the need to shift focus, saves time and improves user efficiency with minimized reading and typing speed.

- **Panoramic view**
  Screen depth and broader view improves users’ perceptions, allowing them to carry out everyday tasks conveniently.

- **Healthier for eyes and neck**
  Ensures eye comfort and reduces neck movement while reading and typing the content.
The ThinkVision T Series monitors make modern and intuitive in-built technology more accessible to users.

**Smart Power technology:**

- Hardware-enabled energy management system on USB Type-C Hub Monitors, it intelligently detects overall power consumption and dynamically manages the power delivery to each connected device.
- Optimizes power distribution up to 75W* through USB Type-C, **increasing energy savings without any loss in performance**. Allows devices charging for smartphones, laptops and tablets, etc.
- **Dynamically controls** power distribution, achieving high energy efficiency and contributing to a **greener world**.

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending on devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
1. TÜV Rheinland Eye Comfort certification

Screen flicker is known to cause eye strain because of how often the pupils adjust to accommodate changes in light. Prolonged exposure of blue light can cause irreparable damage to the eyes due to its high-energy spectrum in the visible light.

The TÜV Rheinland Eye Comfort certified T Series monitors are eye-friendly which means eyes don’t get tired and users can work comfortably.

The monitors offer:

- flicker-free technology
- low blue light solution
- no disturbing reflections
- minimal reduction of image quality

Employees today spend almost 11 hours a day in front of screens. Users who spend long hours on their monitors can work comfortably with these monitors built for better ergonomics. ThinkVision T Series monitors are TÜV Rheinland Eye Comfort certified and have Lift, Tilt, Pivot, and Swivel (LTPS) functionality to enhance user comfort and convenience. Even the built-in cameras are fully adjustable so that users are framed properly.
2. Angle-adjustable camera\(^1\)
allows users to adjust the camera to a comfortable position during meetings so they can focus better.

3. LTPS design:
The full-function monitor stand provides an improved user comfort. With functionalities such as Lift, Tilt, Pivot, and Swivel, the monitor stand\(^1\) allows employees to adopt a posture that suits their needs and work style. An adjustable tilt angle of \(-5^\circ/35^\circ\), swivel angle of \(+45^\circ/-45^\circ\), lift up to 150 mm, and pivot range of \(-90^\circ/90^\circ\) provides\(^2\) maximum comfort for users while working. Improper ergonomics, caused by sitting hunched over and craning the neck causes pain\(^3\) to 98% of its victims, a good reason why LTPS design is necessary.

---

1. Available on T24v-20 model only
2. Functionality differs based on model
Clutter inhibits creativity and productivity.¹ Multiple devices causing cubicle clutter is distracting. ThinkVision T Series helps minimize desk clutter while its space-saving design allows it to effortlessly fit into any workspace.

Space-saving design: a small base and chassis takes up less space and is designed to be placed close to the wall, leaving more desk space

Cable management feature: a cable management hoop behind the T Series monitors helps keep the wires in place so users can enjoy more space on the desk space

Phone holder: an integrated phone holder allows users to maintain an organized desk space while keeping their phones devices in sight

VESAt mount compatibility: using a wall mount helps increase the flexibility of the monitor, simplifying setup in any orientation or angle while moving it off the desk, saving on space as well

Easy to setup: tool-less design makes it easy to setup the monitor.

ThinkCentre Tiny and Nano compatible: a combination clamp² can mount the Tiny and Nano to the back of the monitors.

¹ https://www.entrepreneurshiplife.com/how-clutter-impacts-your-work-productivity
² Sold Separately
The ThinkVision T34w, with its 34-inch, 21:9 curved display and 3440 x 1440 resolution, is a productivity enhancer for business professionals. Collaboration is made easy, when working on multiple windows and spreadsheets, with the industry-leading 1500R curvature panel. To make things more convenient, the monitor uses USB Type-C one-cable solution, reducing desk clutter. The TÜV Rheinland Eye Comfort certification ensures minimal eye fatigue, for productive hours of work.

**FEATURES OF THINKVISION T34w-20**

**Improved Operational Efficiency**

The 34-inch screen with a 21:9 aspect ratio offers about a 12% larger display than a regular 32-inch monitor, resulting in fascinating visuals. The WQHD 3440 x 1440 resolution and the curved display ensure captivating picture quality in a 3-side NearEdgeless screen. Thanks to the industry-leading 1500R curvature panel, business users get more screen real estate, helping them concentrate better on the task at hand and multitask seamlessly.

**Productive and Organized Workplace**

No more messy desks as the T34w-20 offers a convenient and clutter-free one-cable solution that only uses a single USB Type-C for video, data transfers, and power delivery. The Smart Power technology on the T34w effectively manages USB Type-C power delivery up to 75W and reduces the overall power consumption. HDMI, DP, USB hub and audio output allow you to connect to peripherals, enhancing collaboration.

**Efficient and Ergonomically Designed**

Designed for ergonomic and space-saving, the monitor has higher lift range and broader tilt angles that swivel for easy collaboration with others. Built with convenience in mind, the monitor comes with an integrated phone holder and flexible cable management to ensure ease of use. The T34w-20 also offers VESA mount capability for flexible deployment at the office. TÜV Rheinland Eye Comfort certification ensures minimal eye strain when working.

*Up to 75W power delivery to compatible devices by USB Type-C*
### DISPLAY
- **Panel Size**: 34-inch
- **Screen Dimensions**: 797.22 mm x 333.72 mm
- **Panel Type**: 3-side NearEdgeless VA
- **Curvature**: 1500R
- **Backlight**: WLED
- **Aspect Ratio**: 21:9
- **Resolution**: 3440 x 1440

- **Bezel Color**: Raven Black
- **Bezel Width (side)**
  - 2.2 mm
- **Bezel Width (top/bottom)**
  - 2.2 / 27.8 mm

### DIMENSION
- **Size Packed (D x H x W, mm/inch)**
  - 4250.0 x 523.0 x 980.0 mm
  - 167.6 x 20.59 x 38.58 inches
- **Weight Packed (kg/lbs.)**: 13.85 kg / 30.53 lbs.
- **Weight Unpacked (kg/lbs.)**: 9.91 kg / 21.85 lbs.
- **Weight (monitor head only) (kg/lbs.)**: 6.91 kg / 15.23 lbs.

### WHAT’S IN THE BOX
- Monitor with stand
  - 1 x Power cable (1.8 m)
  - 1 x DP cable (1.8 m) (NA only)
  - 1 x USB Type-C to Type-A cable (1.8 m) (NA only)
  - 1 x USB Type-C to Type-C cable (1.8 m)
  - Quick setup guide

### CERTIFICATION
- **ENERGY STAR Rating**: 8.0
- **CCC**: Yes
- **TCO**: 8.0
- **TCO Edge**: 2.0
- **EPEAT**: Silver
- **RoHS (EU 2002/95/EC)**: Yes
- **Windows Certification**: Windows 7, Windows 10
- **China Energy Efficiency Standard**: Tier 2
- **TÜV Rheinland Eye Comfort**: Yes

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
Enbox unbeatable visual delight and envision better on a 4K UHD resolution of ThinkVision T32p-20. The In-Plane Switching panel and ultra-thin bezels of this 31.5-inch monitor, along with sRGB color gamut, offer wider screen real estate for data-intensive work or designing. TÜV Rheinland Eye Comfort certification ensures eye strain and fatigue are reduced and you are at your productive best. Its ergonomic stand allows you to tilt and lift the monitor based on your convenience, while a phone holder and cable management minimize desk clutter. The one-cable solution coupled with Smart Power function on this USB-C Hub Monitor allows faster data transfer, intelligently detects overall power consumption, and dynamically manages the power delivery to each device.

**Unparalleled Visuals**
Get impeccably detailed visuals and 3840 x 2160 resolution on this 3-side NearEdgeless monitor. With four times more pixels than a conventional Full-HD, an In-Plane Switching panel, and 178°/178° viewing angles, ardent professionals can accomplish tasks easily. See a more extensive color space with reduced eye strain, thanks to the 99% sRGB color gamut of this TÜV Rheinland Eye Comfort-certified monitor.

**Uninterrupted Productivity**
Designed with a host of connectivity options such as DisplayPort, HDMI 2.0, and USB 3.1 Gen1, the monitor offers uninterrupted connections and clear audio for meetings and presentations. The one-cable solution along with the Smart Power function of this USB-C Hub Monitor intuitively distributes power supply up to 75W*, and manages overall power consumption for high efficiency.

**Organized Workspace**
Choose between VESA mount capability and an ergonomic stand to position your monitor the way you like and work comfortably. You can adjust the screen to fit your needs with its lift, tilt, swivel, and pivot functionality. A smaller base, with a phone holder and cable management, helps you to organize your desk space without any clutter.

---
*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.

**When connecting one cable USB Type-C at 4K 60Hz, the USB downstream will be USB2.0 by default due to technical limitations. Users can still use USB 3.0 by selecting in OSD and as a result, the display will be adjusted to 4K 30Hz.
Do more than just optimize your productivity with the ThinkVision T32h-20 monitor.

Get an enhanced view of and easily navigate through documents, spreadsheets, or designs on this sleek display that complements your modern workspace. Its vast 31.5-inch screen with QHD resolution delivers more screen real estate with higher clarity than FHD, making data-intensive work, number crunching, and content editing a breeze. The one-cable solution USB Type-C, HDMI, and DP ports provide multiple interface options. Integrated with Smart Power the USB Type-C also doubles up as a charger for dynamic consumption and intelligent power management.

**FEATURES OF THINKVISION T32h-20 MONITOR**

**More Ways to Multitask**

View greater detail with the T32h-20’s 2560 x 1440 resolution and 31.5-inch display. Work on text-heavy documents or large spreadsheets with ease thanks to the monitor’s 3-side NearEdgeless bezels that also enable you to use a multi-screen setup. Content and video creators can experience more pixels and vivid images with the 99% sRGB color gamut. This monitor also has an anti-glare screen, making it perfect for open offices.

**Productivity without Disruptions**

The one-cable solution USB Type-C, HDMI ports, and dedicated DisplayPort make plugging in and sharing your content and creations simpler. The Smart Power function intelligently detects overall power consumption and dynamically manages the power delivery to each device. Get up to 75W* of power delivery through the USB Type-C cable with the Smart Power function. Apart from intelligently distributing power to connected USB and USB Type-C devices, it also reduces maximum power consumption.

**Optimized Workspace**

A smart choice for the modern workplace, the T32h-20 offers comfortable viewing for excellent collaboration and enhanced productivity. Adjust the screen as per your convenience with a high lift range and tilt angle, along with swivel and pivot functionality. Maintain an organized desk and maximize productivity with flexible cable management, an integrated phone holder, a minimized square base and VESA mount capability.

Boost productivity at work with the ThinkVision T27h-20 monitor that allows you to complete data-intensive work and content editing efficiently. The 27-inch In-Plane Switching panel displays accurate and clear details from all angles, while its QHD resolution—with 1.77 times more pixels than a Full-HD display—enhances visual clarity for business professionals. Its 3-side NearEdgeless screen makes it easy to create a multi-screen setup for seamless multitasking. Maximize your desk space with the USB Type-C one-cable solution that comes integrated with Smart Power for better connectivity and power efficiency.

**FEATURES OF THINKVISION T27h-20**

**High-performance Display Solution**

The 2560 x 1440 resolution and 27-inch display mean more pixels that offer greater details and make working on large spreadsheets and designs a breeze. Professionals can set up a multi-screen workspace, with 3-side NearEdgeless bezels on the T27h monitor for effortless multitasking. Thanks to the 99% sRGB color gamut, you can get crisp and vibrant images with realistic colors, perfect for content creation.

**Smart Connectivity**

The USB Type-C one-cable solution, HDMI port, dedicated DisplayPort, and USB hub ensure you have uninterrupted connectivity during meetings or presentations. You can now enjoy a seamless multi-screen experience, thanks to the flexibility of using various peripherals. Additionally, the Smart Power function intelligently detects overall power consumption and dynamically manages the power delivery to each device. Get up to 75W* of power delivery through the USB Type-C cable with the Smart Power function.

**Ergonomic and User-friendly Design**

This monitor is a smart choice for all businesses. The increased lift range and tilt angle, along with swivel and pivot functionality, let you adjust the screen for easy collaboration and comfortable viewing. An integrated phone holder, VESA mount, minimized square base, and flexible cable management ensure you have a clutter-free desk space.

Improve your productivity with the ThinkVision T27q-20. This 27-inch monitor has an In-Plane Switching panel and QHD resolution that enhances picture quality for a more detailed view. Create a multi-screen setup with two or more of these 3-sided NearEdgeless displays for seamless multitasking. Versatile connectivity options allow you to connect with peripherals to transfer and receive data with ease. The T27q’s space-saving design conforms to ergonomics and ensures that your desk space remains organized for improved productivity.

**FEATURES OF THINKVISION T27q-20**

**Uncompromised Visual Experience**
Experience exceptional image quality on the QHD (2560 x 1440), In-Plane Switching display that offers a wide viewing angle. Run applications while checking on multiple spreadsheets—deploy two or more of these 3-sided NearEdgeless monitors side-by-side, for an uninterrupted view and effortless multitasking. Convenient and perfect for any workspace, this monitor helps enhance efficiency.

**Efficient and Smart Working**
Maximize your productivity with multiple ports by connecting to all essential peripherals effortlessly. The monitor has dedicated DisplayPort, four USB 3.1 Gen1 ports, and an HDMI port for seamless connectivity during meetings and presentations. Connect the monitor to an optional speaker via audio out port for a complete audio visual experience.

**Ergonomic and Space-saving Solution**
Place your monitor either on its sturdy stand or mount it up on the wall, using VESA mount for comfortable viewing. The extended tilt and lift range is ergonomic, allowing you to spend time in front of the monitor without fatigue. The cable management, smaller base, and integrated phone holder further add to your convenience and help you work efficiently, by keeping your desk space organized.

Power through your day with the ThinkVision T24i-20. Its FHD In-Plane Switching panel and NearEdgeless bezels make it well suited for multi-monitor setups, helping you enhance efficiency. This TÜV Rheinland Eye Comfort-certified monitor is ideal for professionals as it minimizes eye fatigue and strain. Transfer or receive data with ease using varied options to connect other peripherals. The monitor is thoughtfully designed to keep your desk space organized and provide ergonomic benefits. Reduce your overall energy consumption and carbon footprint with the T24i-20, certified by the ENERGY STAR Most Efficient Mark award in 2020.

FEATURES OF THINKVISION T24i-20

Impressive Display From Any Angle
The FHD In-Plane Switching panel does not distort content when viewed from any angle, up to 178° on either side, allowing everyone to work more accurately with greater details. The ThinkVision T24i-20’s ultra-thin NearEdgeless bezels maximize screen real estate and enable a seamless multi-monitor setup for easy multitasking and navigation of large documents.

Flexible Connectivity Options
Connect your accessories directly to the monitor through its four USB 3.2 Gen1 downstream ports. Power, video, and data peripherals, along with multiple options for display like VGA, DP 1.2, and HDMI 1.4 ensure you experience seamless collaboration. Plug external speakers in through the Audio port for enhanced sound during meetings.

Comfortable Work Environment
The ThinkVision T24i-20’s minimized square base, phone holder, and flexible cable management system help you stay organized. Pivot, tilt, swivel, and lift your monitor for a comfortable setup all day long. Installing the monitor on a wall or separate mounting arms is easy with VESA mount compatibility. Stay focused all day long and reduce eye strain with this TÜV Rheinland Eye Comfort-certified monitor.

Everyday tasks are a breeze with the efficiency of the ThinkVision T24h-20. A well-designed QHD 2560 x 1440 resolution screen, multiple ports, and wide color gamut make it one of the most sought-after 23.8-inch commercial displays available. Transfer data, charge devices, and extend your display from a single port on this USB-C Hub Monitor. It also has a specially engineered panel to reduce glare, an ergonomic stand for improved customization, and a VESA mount for wall mounting.

FEATURES OF THINKVISION T24h-20

Seamless Visuals
The right fit for any business space, the T24h-20 sports a QHD, In-Plane Switching panel that delivers 1.77x higher pixel density than a comparable FHD display. Boost your productivity with a dual or multi-monitor setup taking advantage of the 3-side NearEdgeless bezels that offer a virtually borderless experience. From spreadsheets to rich imagery, see more detail thanks to its 99% sRGB color gamut and 16.7 Million color support.

Extensive Connectivity
The T24h-20’s USB Type-C cable solution ensures a seamless connection with compatible devices. Enjoy a superior collaboration experience with a range of ports, including display, audio out, power charging, video, and data. The Smart Power function intelligently detects overall power consumption and dynamically manages the power delivery to each device—up to 75W*—to ensure you have uninterrupted performance.

Commitment to Ergonomics
Designed for comfort and convenience, lift, tilt, swivel, or pivot the ThinkVision T24h-20 to suit your needs. A flexible cable management system and a small base with an integrated phone holder help you organize your desk with minimal clutter. This TÜV Rheinland Eye Comfort-certified monitor optimizes eye comfort and enables you to work effortlessly.

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration, and may decline with downstream USB ports connected or higher brightness setting.
## CONNECTIVITY

**Video Signal**
- 1 x USB Type-C Gen1 (DP 1.2 Alt Mode)
- 1 x HDMI 1.4

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
Built to empower the next-generation workforce, the ThinkVision T24v-20 redefines workplace collaboration with its smart, innovative features. This 23.8-inch monitor has an IR camera, which along with Windows Hello and enterprise-grade security, ensures instant and secure login. The camera is equipped with a physical shutter that works as added protection to user privacy. Dual microphones and speakers offer an enhanced VoIP meeting experience. Create a strong first impression with every presentation on its Full HD, 3-sided NearEdgeless display that delivers brilliant clarity and outstanding visuals. Its ergonomic features offer comfort and convenience for you to work efficiently.

**FEATURES OF THINKVISION T24v-20**

**Smarter and Personalized Security**
Safety, security, and speed are the need of the hour and the IR camera, in conjunction with Windows Hello facial recognition, gives you exactly that. No need to remember passwords, or save credentials—just log in using your face. Additionally, the ThinkShutter allows you to cover your camera and the auto-alarm feature notifies you if the camera or microphone is in use, offering uncompromised privacy.

**Effective Collaboration**
Virtual meetings will now be a breeze. The T24v-20’s superior screen format, picture quality, and user functionality ensure that your video calls have top-notch clarity, crystal clear sound, and uninterrupted connectivity—thanks to the 2MP Full-HD camera, dual array microphones, and stereo speakers. A viewing angle of 178° makes it easy to collaborate as multiple users can view on-screen content from anywhere in the room.

**Intuitive User Experience**
Make your meetings more comfortable and productive. An angle-adjustable camera and an ergonomic stand allow you to adjust the monitor to match your working style. Smart face-tracking technology automatically adjusts your face in the center of the screen, optimizing the display for a perfect VoIP meeting. With an ergonomic design and dedicated control keys, the T24v makes for a smart choice for any business.

Versatile Monitor for uncompromised productivity

Enhance your work and experience brilliant visuals on the ThinkVision T23i-20. View crystal-clear details from all angles on this 23-inch monitor that has an In-Plane Switching panel and anti-glare display. Its ultra-thin, 3-side NearEdgeless bezels offer wide screen real estate to let you create and collaborate efficiently. Multiple ports on the ThinkVision T23i-20 allow you to connect to peripherals effortlessly. While enabling efficient working, the monitor, with ergonomic stand and TÜV Rheinland Eye Comfort certification, ensures that you work comfortably.

Features of ThinkVision T23i-20

**Visuals That Enthrall**
Crafted for productivity, the In-Plane Switching display with its 1920 x 1080 resolution offers incredible contrast to help you see all the finer details when working on spreadsheets and long-form documents. A 2 mm NearEdgeless bezel allows you to multi-task effectively across two ThinkVision T23i-20 monitors placed side by side. Its 16.7 Million color support accurately reproduces colors, giving you the deepest blacks and the brightest whites.

**Seamless and Uninterrupted Connectivity**
ThinkVision T23i-20, packed with diverse connectivity options such as HDMI, DisplayPort, and VGA ports, enables seamless audio and visual delivery without compromising on quality. Connect to multiple devices using the four USB 3.2 Gen1 ports on board, one of which is also BC 1.2 compatible that facilitates fast charging.

**Premium User Experience**
The ThinkVision T23i-20 adjusts to your work style. The lift, tilt, swivel, and pivot functionality of the ergonomic stand—with extended lift range and tilt angle—enhance convenience and comfort. TÜV Rheinland Eye Comfort certified, the display reduces flickers and low blue light emission, minimizing eye strain. What’s more, you get a dedicated phone holder, a minimized square base, cable management, and VESA mount capability to keep your desk clean and clutter-free.

A good monitor could be the difference between a productive workday, and one spent squinting and craning at a low-quality display. That’s where the Full-HD capabilities and In-Plane Switching panel of the T22i-20 comes in. Get crystal-clear visuals in a 21.5-inch panel that fits any modern workspace. Its 3-side NearEdgeless bezel display lends itself to a seamless multi-screen setup. The monitor’s minimalist square base, phone holder, and cable management reduce the clutter around your desk, making it a practical choice for modern workplaces. The monitor is certified as one of the Most Efficient ENERGY STAR products in 2020. This means that it does not just lower your energy costs, but it is also is great for the environment.

FEATURAS OF THINKVISION T22i-20

See Well, Do More
The ThinkVision T22i-20 is an excellent addition to a modern, open office. Its In-Plane Switching panel and Full-HD 1920 x 1080 resolution give you vibrant and lively content from any angle. The ultra-thin, NearEdgeless bezel design is perfect for multi-screen usage, giving you more screen real estate and helps you focus and work conveniently on text-heavy documents and spreadsheets.

Uninterrupted Connectivity
The monitor comes in-built with a host of ports including a DP 1.2 and HDMI 1.4. For a superior conferencing experience, connect to external speakers and mics using the Audio Out port. The ThinkVision T22i-20 allows seamless data sharing with up to four USB downstream and one USB upstream ports.

Built with You in Mind
The T22i-20’s design shows that the convenience of its users comes first. Tilt, swivel, pivot, and a lift range of up to 150 mm allow you to adjust the monitor to fit your needs, reducing back and neck strain. The TÜV Rheinland Eye Comfort certified monitor is flicker-free, and filters out blue light, reducing eye fatigue. The minimized square base has a built-in phone holder, a cable management clip, and VESA mount capability—optimize desk space and look good doing it.

Redefine collaboration with the purposefully designed 21.5-inch ThinkVision T22v-20. Designated as one of the Most Efficient ENERGY STAR certified products in 2020, it reduces your carbon footprint while lowering power consumption. A built-in camera, Full-HD display, microphone, and speakers take video conferencing to a whole new level and easy to scale. The integrated IR Camera in conjunction with Windows Hello facial recognition ensures secure login without a password. In addition, the ThinkShutter allows you to cover their camera and the Auto Alarm feature notifies you when the camera or microphone is in use—safeguarding user confidentiality and privacy.

FEATURES OF THINKVISION T22v-20

**Effortless Collaboration**
Enjoy seamless collaboration on the ThinkVision T22v-20, equipped with an FHD camera, dual-array microphones, and stereo speakers that facilitate an enhanced VoIP meeting experience. The 1920 x 1080 screen offers exceptional visual clarity for effective meetings and presentations.

**Uncompromised Security**
Privacy is safeguarded with the ThinkShutter that physically covers the camera when not in use. For enhanced privacy, a smart auto-alarm function notifies you if the camera or microphone is in use. The IR camera coupled with Windows Hello ensures secure facial recognition for quick, secure logins.

**Amplified Productivity**
An angle-adjustable camera, inbuilt with smart face-tracking technology automatically adjusts the user’s face to the center of the screen, optimizing the display for a perfect VoIP meeting. Dedicated speaker and microphone control keys make it easy to toggle audio and video during meetings. Increased lift range and tilt angle on this monitor allow you to adjust it to a comfortable position.

The ThinkVision T27i-10 is a high-performance monitor that offers long-term productivity for intense data and graphic applications. With the borderless In-Plane Switching display and multiple ports for versatile connectivity, the T27i-10 lets you explore your potential and realize it. The NearEdgeless Full-HD display with 2mm bezel makes for easy connection to multiple displays with seamless visual clarity. The ergonomic stand is compatible with ThinkCentre Tiny and the sound bar, enabling you to utilize the monitor to the fullest. Eye Comfort certification by TÜV Rheinland ensures these displays are easy on the eyes, giving you the comfort you need.

**FEATURES OF THINKVISION T27i-10**

**NearEdgeless Display**
A 1920 x 1080, Full-HD resolution ensures sharp imagery and vivid colors. The space-saving bezel is 2mm thin, beneficial especially if you are interacting with multiple screens. In-Plane Switching display offers a wide-viewing angle, so you never miss any detail, be it while comparing multiple files or working on complex graphical tasks.

**Effective Connectivity**
A range of ports such as VGA, DP, and HDMI, ensure your connectivity needs are met. With four USB 3.0 ports, connect to as many devices and increase your productivity.

**Practical Design**
The ThinkVision T27i-10 is built to support your work and your environment. Easily mount the ThinkCentre Tiny with a clamp the way you like. The toolless design makes it easy to setup the monitor. The sound bar extension is ready to add to your groove.

The ThinkVision T27p-10 is designed to provide you with a spectacular viewing experience. The NearEdgeless screen and 3840 x 2160 resolution make it an excellent productivity tool. As a USB-C Hub Monitor, it comes with a perfect one-cable solution for transmitting data, video, and power delivery to compatible devices with a USB Type-C port. Multiple USB ports enable easy connectivity to peripherals, making it a truly great investment for professionals in any industry who rely on additional monitors to multitask. Moreover, the ergonomically designed stand with lift, tilt, pivot, and swivel functionalities allow you to adjust the monitor for your comfort.

FEATURES OF THINKVISION T27p-10

Wider Viewing Angle
With the In-Plane Switching technology, and UHD resolution with 1.07 Billion colors, you are assured of crystal-clear picture quality, more natural colors, and wider viewing angles. The ThinkVision T27p-10 provides 4ms response time to minimize motion blur caused by fast-moving images for a superior visual experience.

Versatile Connectivity
The ThinkVision T27p-10 USB-C Hub Monitor helps you eliminate cable clutter with a single, all-in-one data, video, and power connector—the USB Type-C. This coupled with HDMI 2.0, DP 1.2, and four USB 3.1 Gen1 ports will help you effortlessly connect multiple peripherals at once. It also supports Smart Power technology* that manages power consumption and delivery.

*Up to 75W power delivery to compatible devices by USB Type-C

Enhanced User Experience
Reduce the strain on your back and neck with a fully ergonomic monitor stand. Lift, tilt, pivot, or swivel the monitor to adjust it as per your convenience. Protect your eyes from blue light emission with the TÜV Rheinland Eye Comfort certified anti-glare screen. The ThinkVision T27p-10 also supports a soundbar and a ThinkCentre Tiny desktop to further enhance your computing experience.

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
The ThinkVision T25m-10 25-inch monitor with a 16:10 aspect ratio, offers 8% larger display area than a traditional 24-inch 16:10 monitor, perfect for professionals who need additional screen real estate. Engineered to produce lifelike visuals, the WUXGA 1920 x 1200 resolution display offers remarkable clarity. Modern connectivity options on the T25m enable easy collaboration along with performance. The USB Type-C cable and integrated speakers combo offers an impressive audio-visual experience. The ergonomic build provides optimum user comfort. With a NearEdgeless screen and smart, productivity-boosting features, the ThinkVision T25m is the next-generation display.

**FEATURES OF THINKVISION T25m-10**

**Stunning Visual Experience**
Enjoy stunning views from all angles with the In-Plane Switching display and wide viewing angle. With up to 4ms response time, the WUXGA 16:10 display minimizes motion-blur and eliminates streaking for a seamless viewing experience. The 99% sRGB color space on the monitor makes color consistency a standard for any usage.

**Advanced Connectivity**
Connect and collaborate easily with ports such as USB Type-C, four USB 3.1 Gen1, HDMI, and DP. The modern USB Type-C port provides audio, data, and video delivery all via a single cable. It also supports the Smart Power function* that intelligently detects overall power consumption and dynamically manages the delivery. Plus, the internal speakers offer an immersive audio experience.

*Up to 75W power delivery to compatible devices by USB Type-C

**Clarity with Comfort**
Minimize eye fatigue with the TÜV Rheinland Eye Comfort certified anti-glare display that protects the eyes from blue light emission. Find your ideal working position with the lift, tilt, pivot, and swivel functionalities. The tool-free design makes it easy to assemble. Also, the cable management hoop helps keep your desk organized and clutter-free.

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
The ThinkVision T25d with its 25-inch NearEdgeless In-Plane Switching screen redefines visual clarity. The 16:10 aspect ratio with 11% more pixels than full-HD offer more screen real estate for seamless multitasking. Versatile HDMI, DisplayPort, and legacy VGA ports enable easy connectivity to your favorite work essentials. Impressive 4ms response time minimizes motion blur, allowing you to enjoy smooth, flicker-free visuals from any angle. Well suited for number crunching, or graphic designing, the ThinkVision T25d monitor is a smart investment for professionals whose job role requires them to be more detail-oriented.

FEATURES OF THINKVISION T25d-10

**Superior Viewing Experience**
Enjoy 11% more pixels than a full-HD screen and 8% more visual space than a 24-inch 16:10 monitor. The ThinkVision T25d is primed to captivate you with its edge-to-edge visual experience. View accurate colors with the 99% sRGB color gamut that offers unparalleled color range for quality content creation.

**Quick Connectivity**
Take a break from switching between tabs as the T25d monitor comes equipped with legendary VGA, modern HDMI and DP Ports that allow connectivity to additional monitors. The four USB 3.1 Gen1 ports meet various connectivity needs, enabling you to check off your to-do list faster. Also, the 'USB always-on' mode allows you to charge your devices through the monitor.

**Easily Adjustable and Ergonomic**
The full-function monitor stand lets you lift, tilt, pivot, or swivel the device, allowing you to work comfortably. You can also install a ThinkCentre Tiny PC easily with the VESA compatible mount to experience fast and powerful computing in a sleek, space-saving design.
### Display
- **Panel Size**: 25-inch
- **Screen Dimensions**: 533.45 mm x 338.76 mm
- **Panel Type**: In-Plane Switching
- **Backlight**: WLED
- **Aspect Ratio**: 16:10
- **Resolution**: 1920 x 1200
- **Pixel Pitch**: 0.2789 x 0.2823 mm
- **Dot/ Pixel Per Inch (DPI/ PPI)**: 91
- **Viewing Angle (H x V @ CR 10:1)**: 178° / 178°
- **Response Time**: 4ms (extreme mode), 6ms (normal mode)
- **Brightness (peak)**: 250 cd/m²
- **Contrast Ratio (typical)**: 1000:1
- **Dynamic Contrast Ratio (typical)**: 3M:1
- **Brightness (typical)**: 300 cd/m²
- **Color Gamut**: 99% sRGB
- **Color Support**: 16.7 Million
- **Color Depth**: 8-bit

### Power
- **Power Consumption (typ./max.)**: 25W / 66W
- **Power Consumption Sleep/Off Mode**: < 0.3W
- **Power Consumption Switch Off Mode**: < 0.5W

### MECHANICAL
- **Tilt Angle (front/back)**: -5° / 30°
- **Swivel Angle (left/right)**: ± 45° / -45°
- **Lift (max range)**: 110 mm
- **Pivot**: -90° / 90°
- **VESPA Mount Capability**: Yes (100 x 100 mm)
- **Foldable Bracket Support**: Yes (sold separately)
- **Kensington Lock Slot**: Yes
- **Bezel Width (side)**: 2.0 mm
- **Bezel Width (top/bottom)**: 2.0 / 22.2 mm

### Dimensions
- **Size Packed (D x H x W, mm/inch)**: 706.0 x 450.0 x 160.0 mm / 27.79 x 17.72 x 6.30 inches
- **Size Unpacked with stand (D x H x W, mm/inch)**: (lowest position) 260.4 x 399.5 x 548.7 mm / 10.25 x 15.73 x 21.60 inches
- **Size Unpacked with stand (D x H x W, mm/inch)**: (highest position) 260.4 x 509.5 x 548.7 mm / 10.25 x 20.06 x 21.60 inches
- **Size Unpacked w/o stand (D x H x W, mm/inch) (head only)**: 43.0 x 369.1 x 548.7 mm / 1.69 x 14.53 x 21.60 inches

### WHAT'S IN THE BOX
- Monitor with stand
  - 1 × Power Cable
  - 1 × USB 3.1 Gen1 Cable
  - 1 × HDMI Cable
  - 1 × DP Cable
  - Quick Setup Guide

### Certification
- **ENERGY STAR Rating**: 8.0
- **EU RoHS**: Yes
- **CCC**: Yes
- **TCO**: 8.0

- **EPEAT**: Silver
- **Windows Certification**: Windows 7, Windows 10
- **China Energy Efficiency Standard**: Tier 2
- **TÜV Rheinland Eye Comfort**: Yes

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.
The sleek, stylish ThinkVision T24d-10 Monitor doesn’t just display images – it presents them at over 99% sRGB color gamut and exceptionally crisp 1920 x 1200 resolutions cross near-frameless 24” display. Enjoy vivid images across wide (178°/178°) viewing angles with no color distortion or reflection. With elegant slim design, the monitor fit in any workspace. Get the large visual workspace you need with a professional monitor designed to enhance productivity and make collaboration easy.

**FEATURES OF THINKVISION T24d-10**

**Display Performance**
Professional performance defines the WUXGA (1920 x 1200) resolution, over 99% sRGB high color gamut, 1000:1 contrast and In-Plane Switching offer exceptional viewing angles. The 300nits brightness, 4ms response time, and with 99% sRGB color gamut that supports up to 16.7M colors, this monitor is an ideal choice for video editors.

**Productivity at its Finest**
The multiple ports such as USB 3.0, HDMI1.4, DP1.2, and VGA allow you to extend their device capabilities and multitask seamlessly. A full-function stand ensures your display sports an executive look regardless of whether you swivel, tilt, pivot, or lift. Paired with near-edgeless screen, you can enjoy a clean look and seamless views cross multi-monitor displays.

**Ergonomic and Manageable**
The ergonomic full-function stand is perfect for collaboration. It supports the new tiny clamp bracket for easy set-up of the ThinkCentre Tiny. With the cable management hoop behind the monitor, you can reduce cable clutter and enjoy more space on the desk.

The ThinkVision T23d-10 is a superior monitor that ensures you never miss any detail, be it comparing data-intensive files or while creating content. With the vivid 22.5-inch display and versatile connectivity options, it lets you perform to your full potential. The 16:10 aspect ratio of the T23d-10 makes for an extra wide display and a superior viewing experience. The borderless panel and the super narrow bezel make it ideal for multi-screen connection, adding to your productivity. With up to 4ms response time, the anti-glare display minimizes motion blur and eliminates streaking and ghosting for a smooth interaction.

FEATURES OF THINKVISION T23d-10

Increase Your Efficiency
The 22.5-inch borderless display offers 11% more space, allowing you to do much more. The extra thin bezel is beneficial especially if you are dealing with extensive data and need to work with multiple screens. A variety of ports including VGA, DP, and HDMI allow you to connect to other peripherals and multitask with utmost ease.

Adaptable and Ergonomic
The ThinkVision T23d-10 is built to support you in any work environment. The wide 178° viewing angle eliminates disturbing reflections and makes for a brilliant and bright display, so you don’t miss a single detail. Easy to assemble (tool-free), the ergonomic stand can lift, tilt, pivot, and swivel at your will. For a clutter-free desk, manage cables with the clip behind the stand.

Clarity with Comfort
Promoting eye-safety, the ThinkVision T23d-10 comes with the TÜV Rheinland Eye Comfort certification. It is the solution to long hours at the desk. Also, these monitors emit low blue light and offer flicker-free display with no reflections, which lessens eye-strain without hindering your productivity.

ThinkVision T2054p is a real productivity-builder for business. The brilliant 19.5” wide-angle In-Plane Switching display is perfect for everything from tiny text to complex images, and the compact design is a real space-saver. It’s perfect for any user with lift-tilt-swivel stand and support for a ThinkCentre Tiny PC bracket. Fully Green-certified, it pairs seamlessly to virtually any device with VGA, DisplayPort 1.2 and HDMI 1.4 ports.

FEATURES OF THINKVISION T2054p

Brilliant Screen Performance
The In-Plane Switching screen displays crisp images from centre to sides with a 16:10 wide-angle view. 16.7 Million colors, 250 nits brightness and 1000:1 contrast ensure a truly vivid display. Graphic designers and video editors can enjoy flawless content creation and editing with the 1440 x 900 pixels resolution and 7ms response time.

Compact, Space-saving Design
This compact monitor fits anywhere you need it, and adjusts for any user with lift-tilt-swivel stand and support for a ThinkCentre Tiny PC clamp bracket. The cable management hoop located behind the monitor lets you bind all cables together, offering a clutter-free desk.

Seamless Connectivity
Use the T2054p seamlessly with virtually any system or device, thanks to VGA, HDMI 1.4 and DisplayPort 1.2 connectivity. Big data analysts and finance experts can expand device capabilities with an array of connectivity ports.
**DISPLAY**

- Panel Size: 22.5-inch
- Screen Dimensions: 418.608mm x 262.35mm
- Panel Type: In-Plane Switching
- Backlight: WLED
- Aspect Ratio: 16:10
- Resolution: 1440 x 900
- Pixel Pitch: 0.0969mm x 0.2915mm
- Dot/Pixel Per Inch (DPI/PPP): 87.14
- Viewing Angle (H x V @ CR 10:1): 170°/170°
- Response Time: 7ms
- Brightness (peak): 250 cd/m²
- Contrast Ratio (typical): 1000:1
- Color Gamut: 72% NTSC (CIE 1931)
- Color Support: 16.7 Million
- Color Depth: 8-bit
- Anti-glare: Yes

*Listed as maximum capacity of power delivery. Actual capacity of power delivery may vary depending upon devices connected or monitor configuration and may decline with downstream USB ports connected or higher brightness setting.*
Designed for anyone who prefers a traditional 5:4 display format, this sleek, affordable, space-saving 17” monitor delivers outstanding FHD (1280 x 1024) display quality. This monitor delivers outstanding brightness and contrast with a 72% color gamut and 170°/160° viewing angle yet meeting ThinkVision’s Green Grand Slam. Sleek and easy to manage, it includes an ultra-flexible Tilt & Lift stand, practical cable management, and supports VESA mounts and Lenovo Tiny brackets.

**FEATURES OF THINKVISION T1714p**

**Outstanding Display Performance**

Breeze through everyday tasks on the stunning 17-inch FHD (1280 x 1024) 5:4 ratio display. A 250 nits brightness, 1000:1 contrast, and 16.7 Million colors offers truly vivid visuals with an excellent color performance for content creators.

**Primed For Business**

VGA, DVI and DisplayPort 1.2 connectivity provides total flexibility to connect to the peripherals. Green certifications include ENERGY STAR 8.0, EPEAT Gold, and more ensure that your monitor is built as per the energy-efficiency standards which reduces power consumption and is designed keeping environmental sustainability in mind.

**Easy to Manage**

The sleek new profile includes an ultra-flexible Tilt and Lift stand that allows you to adjust the monitor. Practical cable management enables a clear desk space, while the support for VESA and Lenovo Tiny mounts allows for easy mounting and setup of the monitor into a complete desktop system.

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications:
- 5 Gbit/s for USB 3.1 Gen1
- 10 Gbit/s for USB 3.1 Gen2 &
- 20 Gbit/s for USB 3.2.
